EXECUTIVE DEPARTMENT
OFFICE OF STATE FINANCE

November 25, 1986

State Board of Equalization
State Capitol Building
Oklahoma City, OK 73105

Gentlemen:

The Constitution of the State of Oklahoma, Article 10, Section 23, as last amended April 30, 1985, provides in pertinent part:

> Not more than forty-five (45) days or less than thirty-five (35) days prior to the convening of each regular session of the Legislature, the State Board of Equalization shall certify the total amount of revenue which accrued during the last preceding fiscal year to the General Revenue Fund and to each Special Revenue Fund appropriated directly by the Legislature, and shall further certify amounts available for appropriation which shall be based on a determination, in accordance with the procedure hereinafter provided, of the revenues to be received by the state under the laws in effect at the time such determination is made, for the next ensuing fiscal year, showing separately the revenues to accrue to the credit of each such fund appropriated directly by the Legislature.
>
> Amounts certified as available for appropriation from each fund, as hereinbefore provided, shall be ninety-five percent (95%) of an itemized estimate made by the State Board of Equalization, which shall include all sources of revenue to each fund for the next ensuing fiscal year; provided however, appropriated federal funds shall be certified for the full amount of the estimate. Said estimate shall consider any increase or decline in revenues that would result from predictable changes in the economy.

The following report has been prepared in accordance with the procedures set forth above, and is respectfully submitted for your consideration.

Sincerely,

/s/Jerry B. Scribner
Acting Director of State Finance

RESERVE INCREMENT CALCULATIONS

Schedule 4

The General Revenue and Human Services Cash-flow Reserve Fund increments are the projected requirements for satisfying the differences between the reserve-in requirements for the year to be certified and the anticipated requirements for the next succeeding year. The reserve-in requirements for the year to be certified are calculable from data presented as a part of Schedule 1. An implicit growth rate has been calculated using estimates and projections presented in Schedule 3, this report, for the current and next succeeding fiscal years (F.Y. 1987 and F.Y. 1988) as the basis for a straight line projection to anticipate receipts for the out year period. The implicit growth rate is negative for both the General Revenue and the Human Services Funds, and an increment is not required.

CODE OF CONDUCT — CODE OF ETHICS

Senator Dennis moved that the Code of Conduct and Standards for members of the Senate and staff and the Code of Ethics for the Oklahoma State Senate, approved in the 40th Legislature, be adopted for the 41st Legislature, which motion was declared adopted upon roll call as follows:

Aye: Boatner, Branch, Branstetter, Brown, Cain, Capps, Choate, Cole, Cullison, Dahl, Dennis, Dickerson, Dudley, Fisher, Floyd, Ford, Gardenhire, Giles, Green, Haney, Hendrick, Herbert, Hooper, Horner, Kerr, Kingston, Lamb, Leonard, Luton, Marshall, McCune, Miles-LaGrange, Pierce, Randle, Rhodes, Roberts, Rozell, Sadler, Schuelein, Shedrick, Shurden, Smith, Stipe, Taliaferro, Taylor, Watson and Wright.—47.

Vacancy: District 37.—1.

A CODE OF ETHICS FOR THE OKLAHOMA STATE SENATE

ARTICLE I
Statement of Purpose

The Senate finds and declares that high moral and ethical standards among public servants are essential to the orderly conduct of a free government; that a code of ethics for the guidance of public officers and employees is necessary in order to eliminate conflicts of interest in public office, improve standards of public service, and promote and strengthen the faith and confidence of the people in their government.

All Senators before entering upon the duties of their offices, according to Article XV, Section 1 of the Constitution of the State of Oklahoma, are required to take and subscribe to the following oath or affirmation: "I, ..., do solemnly swear (or affirm) that I will support, obey, and defend the Constitution of the United States, and the Constitution of the State of Oklahoma, and that I will not, knowingly, receive, directly or indirectly, any money or other valuable thing, for the performance or nonperformance of any act or duty pertaining to my office, other than the compensation allowed by law; I further swear (or affirm) that I will faithfully discharge my duties as Senator to the best of my ability."

The Senate also recognizes that, in Oklahoma, service in the Senate is not a full-time occupation and is not compensated on that basis with the result that Senators must look to income from sources other than their senatorial salaries and allowances to feed, shelter and clothe themselves and their families. That being true, conflicts of interest of varying degrees may occur from time to time for even the most careful and conscientious Senator as a part-time public official. It is, therefore, the purpose of this Code of Ethics for the Oklahoma State Senate to set reasonable and practicable standards and guidelines governing the conduct of Senators that will assure this body of attracting to it men and women of high integrity, character and dedication and yet not so stringent and restrictive as to limit service herein only to the very poor or the very wealthy.

ARTICLE II
Statutory Requirements

SECTION 1. Title 74 of the Oklahoma Statutes, Section 1409, provides as follows:

No Legislator shall

(a) Introduce, promote or vote for any proposed special interest legislation on his own behalf, or on behalf of any other person, corporation, partnership, trust or business entity which directly affects such Legislator or in which such Legislator has or may have any substantial financial interests other than legislation affecting legislative salaries, expenses and allowances; provided, that this provision shall not preclude a Legislator from introducing, promoting or voting for any proposed general legislation which directly affects him or in which he has or may have any substantial financial interest;

(b) Directly or indirectly accept or request any compensation, gift, loan, entertainment, favor, or service given for the purpose of influencing such Legislator in the discharge of his official duties. Provided, however, that this section shall not apply to bona fide campaign contributions;

(c) Use his official position to secure special privileges, exemptions or compensation for himself, except as may be provided by law;

(d) Disclose confidential information acquired by reason of his official position to any person, group, or others not entitled to receive such confidential information, nor shall he use such information for his personal gain or benefit;

(e) Sell or cause to be sold, either as an individual or through any business enterprise in which he holds a substantial financial interest, goods or services to any state agency unless the contract is awarded pursuant to statutes of the State of Oklahoma;

(f) Receive any compensation for his services as a Legislator from any source other than the State of Oklahoma, unless otherwise provided by law;

(g) Accept other employment which would impair his independence of judgment in the performance of his public duties;

(h) Receive or agree to receive compensation for representing or assisting any person or business in any transaction involving the state; provided, this subsection shall not apply to representation of a person or business when such representation requires the Legislator to possess a special license, permit, or technical knowledge to properly represent the person or business. This act shall not be interpreted to prevent an attorney to appear in behalf of his client in any court, board or commission; or

(i) Be employed by or receive any commission, fee, or compensation from the state, except the compensation and allowance for expenses provided by law to a Legislator.

Nothing in this section shall prohibit a Legislator from representing or assisting a person or business in any matter before an administrative or judicial body of the state when the matter merely involves a proceeding by a person or business against another person or business.

When a Senator is in doubt as to the application of this statute to himself, he may submit to the Attorney General a fully written statement of the facts and questions he may have. The Attorney General shall then render an opinion to the Senator and may publish these opinions, or abstracts thereof, with the name of the Senator advised, unless the Senator requests otherwise in writing. In addition, Senate Rule 7-5 states that the Committee on Standards and Ethics shall provide, upon the request of any member of the Senate, an interpretation of the Code of Ethics or Code of Conduct as it applies to a specific situation.The identity of the member making the request may be kept confidential, at the discretion of the member.

ARTICLE III
Campaign Finances

SECTION 1. Senators shall be careful and diligent in complying with requirements of the general law of the state regulating campaign financial disclosures, as contained in Article XV of Title 26 of the Oklahoma Statutes.

ARTICLE IV
Senate Committee on Standards and Ethics

SECTION 1. The committees shall have the authority to consider complaints concerning alleged violations of the Code of Ethics or statutes governing senatorial ethics or conduct and to investigate such complaints and hold hearings as authorized by the President Pro Tempore. Any member who feels that the ethics of the Senate are being violated by either a member of the Senate or the staff should seek redress by submitting a complaint concerning the violation to the President Pro Tempore. Before the committee exercises any of the authority granted in this section with respect to any investigation or hearing it shall, by majority vote of the whole membership of the committee, define the nature and scope of its inquiry. All proceedings before the committee concerning alleged violations of the Code of Ethics or Statutes governing senatorial ethics or conduct shall be conducted in executive session.

SECTION 2. Complaints must be in writing, signed by the person making the complaint, stating all available facts, under oath, or affirmation, which oath or affirmation must be taken personally before the chairman or any member of the Senate Committee on Standards and Ethics. Any complaint so filed shall be deemed confidential, until such time as the Committee has held a meeting for the purpose of investigating the complaint and said complaint shall remain confidential if the Committee seeks further information thereon, and if the Committee at the conclusion of its preliminary investigation concludes that said complaint was false and groundless the matter shall be closed. If, after the initial investigation, a majority of the committee determines that there is probable cause to believe that a violation of the Code of Ethics or of a statute governing senatorial ethics or conduct might have occurred, a copy of the complaint and a further statement of the alleged violation shall be served upon the alleged violator. He or she shall have twenty (20) days after service thereof to respond in writing to the complaint and statement. If any information or complaint which is required by this Code to remain confidential is disclosed, the committee, at its discretion, may refuse to consider the matter further.

SECTION 3. The Senate Committee on Standards and Ethics shall be clothed with all the powers granted to investigating committees generally by the Oklahoma Statutes, and any person who, having been served with a subpoena to appear before the committee, willfully fails to appear, or who, having appeared, willfully refuses to answer questions of the committee or produce any papers, documents, records, or other items of evidence called for by the committee, or who discloses any information which is required by this code to remain confidential, is guilty of contempt and is punishable as provided by the Oklahoma Statutes. Further, any person who willfully swears or affirms falsely in any material manner, in respect to any matter under inquiry by the committee, upon oath or affirmation, to the complaint or in giving testimony, or who produces false evidence, is guilty of perjury and is punishable as provided in the Oklahoma Statutes. Further, any person who willfully evades the service of a subpoena by the committee is punishable as provided by the Oklahoma Statutes.

2. Each Senator is personally responsible for his or her own staff. All other staff members of the Senate are under the authority of the Secretary of the Senate. Complaints pertaining to employees, either personal staff or Senate staff, should be made to the proper authority rather than to the individual.

3. (a) On the floor during session and in committee, members should endeavor to be congenial and complimentary. Members should avoid personal attacks and dealing in personalities. (b) During public occasions away from the Capitol, members should endeavor to keep personalities out of their discussions and deal with programs, not personalities.

7. While a Senator is speaking, no Senator should enter into any disturbing private conversation or pass between the speaking Senator and the Presiding Officer. Profane, obscene, or indecent language is discouraged in the Senate and in all standing or special committees of the Senate.

8. A Senator shall address other members with the title "Senator" when addressing one another during formal Senate proceedings either on the floor of the Senate or in committee.

9. The Presiding Officer may direct a designated Senate employee to activate his roll call switch. No member shall be permitted to vote on any question unless said member is physically present in the chamber at the time the vote is taken.

10. The President Pro Tempore (or the Majority Floor Leader) shall designate those Senate employees who shall be granted privileges of the floor during any session of the Senate, said employees to be limited to those whose work requires their presence.

Any member desiring to bring a guest to the floor of the Senate shall first notify the Majority Floor Leader. No such guest shall enter the chamber until privileges of the floor have been granted pursuant to Rule 10-10.

11. No person other than a member of the Senate shall cause materials to be distributed on each desk in the Senate chamber without first having obtained approval by the Majority Floor Leader. The sponsoring senator will be identified.

13. Senator Luton moved that the President and Speaker appoint a committee of three members from the Senate and House, respectively, as a Joint Committee to notify Governor Nigh that the First Regular Session of the 41st Legislature is now in Joint Session and ready to receive him and hear his message, which motion was declared adopted.

FOR THE SENATE — Senators Capps, Sadler and Leonard.

FOR THE HOUSE — Representatives Talley, Charlie Morgan and Bastin.

Sergeant at Arms, Bob Craig, was recognized and announced the arrival of the Chief Executive, the Honorable George Nigh, accompanied by the Joint Committee.

Governor Nigh was escorted to the Speaker's desk by the Joint Committee.

President Bernard presented Governor Nigh to the Joint Session, where he delivered his address as follows:

MESSAGE OF GOVERNOR GEORGE NIGH

Lieutenant Governor Bernard
President Pro Tempore Randle
Speaker Barker
Members of the Legislature

I have this very mixed emotional feeling in my body, in my mind and my heart right now. You might think it's a mixed emotion because I'm ending 36 years of having run for office and 32 years of having served in office. Frankly, I was kind of concerned when the honorable committee of the honorable House and the honorable Senate were waiting for me back there, and the television gentleman was photographing, the Chief of Security of the House came up and told this guy, you can get a better shot at the Governor if you come over here in this gallery.

This is kind of an occasion for me, when I tell you with pride that some 36 years ago I ran for the Legislature and sat on the furthest seat at the back of the chamber as a freshman legislator, and that was in 1951. So now in 1987 to complete those eight years in the Legislature, sixteen as Lieutenant Governor and eight as Governor, and to have the tenth time to address the joint session in the State of the State to other occasions as Lieutenant Governor filling unexpired terms of Governor Edmondson and Governor Boren, and to come here today to say farewell in the State of the State speech, it seems like I've been there before. To quote some famous Oklahoman that I know, it's sort of "deja vu." It seems I've been here before. In fact, it seems like every time I move out of the mansion Henry Bellmon moves in.

THANKS OKLAHOMA

If I could write the headlines, and I can't, you know. Everyone in here knows I don't get to write the headlines but I would hope that the headlines say "Nigh Says Thanks." That's the whole purpose of me being here today; it's not really a State of the State speech. It's not appropriate. On the day after election I told a press conference that State of the State addresses and the agenda for the State of Oklahoma would be said by a new Governor, new Lieutenant Governor and new other officers, and new legislators, an entire new House. Although some are returning, half of the Senate is new. It's a new day for Oklahoma and not appropriate that I would give the normal sense of a State of the State speech. But to say thanks is important to a guy like me, as it is to a person like you who call upon friends over the years to be such a strong part of your life and to have been given the opportunities that we've

been given that thousands of others asked for or wanted or maybe didn't dare to try to ask for it. We've been given that opportunity and that trust. So when you come to this plateau in your life, it's appropriate that you reflect and say thanks.

And not necessarily in order may I say thanks to some particular people by groups. First of all, thanks to the voters of Oklahoma. Every election I've ever run for 36 years, my name's been on the ballot for 36 consecutive election years. And this year when it wasn't on there, it was frustrating. So I took a state question and went out and campaigned for it and shook hands and kissed babies. People would say, "Nigh, what are you doing here?" And I'd say I'm having withdrawal pains. It was a funny feeling. But I want to say thanks to the voters who the only defeat I ever had was when I ran for Governor in 1962, and it was the best thing that ever happened for me. A lot of politicians can't understand that defeats are good for you; that was good for me because that was the opportunity I'd never had before. That's good for me because that's when I met my wife Donna. And had I been elected, my family, my wife, that's tough, would not have been the same. So I want to say thanks to the voters of Oklahoma for your trust and confidence.

As I leave still with a white hat on my lapel, I hope that at least on issues we might disagree, but the public trust is sacred. And I want to say thanks to the citizens of Oklahoma, not just the voters, but to the citizens of Oklahoma who through their citizen participation we had more studies, more task force, more reform committees, more higher education, we had more participation, more people on boards and commissions than ever before in the history of the state. I want to say thank you to all those people who helped.

I want to say thank you to the administrators and the employees of state government. I want to say it and I hope the press is reporting this because I think it's important to understand that government employees many times are abused, and I appreciate them. I appreciate the sacrifice that they make, many times underpaid and underappreciated. I want to say thank you to the legislators, those who particularly have worked with me in programs, those who've worked and supported efforts, those who came up with better ideas than I might have had. I don't think a Governor or Senator or House member or Congressman or President or United States Senator is the person who's supposed to be looked to as having all the answers. There's supposed to be people who are willing to listen to all the suggestions and then try to come up with an answer if it's better. Then it's better that they listened rather than they rush hurriedly into a decision process. But I thank the legislators who have worked with me over the years, those present and those gone.

I want to thank everyone who has helped make this possible, particularly my staff who've been very supportive of me. But particularly I want to thank my family. The one thing you lose in public life is privacy. That's why they call it public life. And to my family who stood behind me, the strong suffering supporters, it's the family who suffers more than the office holder, I want to say thank you to them for the sacrifices of the time that I didn't make P.T.A., or the time I didn't make the track event, or the time I wasn't home for a weekend, I want to thank them. But may I say even more to Donna, who did a lot more than a duty dance as the First Lady of Oklahoma. She literally was the guiding light that brought the mentally retarded treatment out of the dark ages in Oklahoma.

President Bernard, President Pro Tempore Randle, Mr. Speaker Barker, Ladies and Gentlemen of the Joint Session, and People of Oklahoma, I stand here today as a proud man. I'm proud of my opportu-

nities; I'm proud of those things I list as accomplishments; I'm proud of my profession. I stand here today proud of public service, proud of it in either party, proud of it of any race, of any age or even sex. I'm proud of men and women who offer themselves to serve.

I'M PROUD OF OKLAHOMA!

I am proud of what we have been able to do. The Governor gets to cut a lot of roads, open a lot of buildings, do a lot of things when really it would take the entire legislative body to go with him and say, we did this. I am proud of what we have been able to do over the years and I am confident of what you will be able to do in the future.

You have been given a trust. When people have been put into offices, whether it be a civic club, municipal, school board or government, you are given a trust. You take it like you found it. Your mission is to leave it better. There are a lot of people in life who judge success of what a project is having been completed. Government work is never completed. You must judge success in government and in public service upon progress. Did you take it one way and did you leave it better? Success should be measured by the fact that you made progress. The highway program is never complete. You finish four-laning highway 69 from border to border and you have to start in at one border and start repairing it. You finish the northwest passage and by the time you get through you have to start around Watonga again and repair it. You do the Central Expressway in Oklahoma City and we reduced it to three years and at the same time we're rebuilding the entire interstate system in the State of Oklahoma. You build an education system and jobs change so you change the courses you offer to the kids and the kids are no longer kids, the students are of all ages. You retrain the work force; your job is never done.

I inherited a corrections system that was under a court order. We worked hard and tirelessly and appropriated millions of dollars to building more prisons, training the staff, doing better things. We received national awards of having one of the finest correctional systems in the United States of America. That is hard for a lot of people to understand.

We were winning another battle at the time, we were cracking down on drug abuse, we were cracking down on drunk drivers and we also were enforcing crime and punishment. So at a time when we improved a prison system and came out from under a court order and cited by the Reagan Administration as the finest corrections system in the country, we ran out of space and were unable to wave a magic wand and create more prisons. And because we made an attack with MADD and SADD and those groups — an attack that put drug sellers and users in prison, we have burgeoning prison problems. On one hand we are recognized as a national leader and on the other hand we have alternatives that we really don't like such as house arrest and the CAP program because we have never faced up to the fact that we have got to build more prisons if we are going to incarcerate. And I believe in punishment. So your work is never done. You try to be better. Not necessarily better than everyone else. I don't think we have to have as our goal to be better than New York, better than California or better than Arkansas. I think we need to start out with the attitude in Oklahoma that we are going to be better than our former selves. That we are going to look at Oklahoma and we are going to try to make it better and in the long run, hope that we achieve national reorganization. But you start with what you have and make it better and that is success.

Today, as any time any Governor ever addressed you, the number one issue in this state even in good times or bad times, is the economy. It is true at the national level. There are some things over which we have

no control ladies and gentlemen. If you are new in the Legislature, welcome, but you are in for a rude awakening. There are a lot of things over which we have no control. The price of oil dropping from $32 a barrel to $9 a barrel, I don't have much influence with OPEC. Agriculture products, wheat exports, imports, imbalance of trade, national debt, national interest, the national deficit, we don't have much to do with that. But it all affects the economy in the State of Oklahoma. So you just try to affect those things over which you have some effect or some control and we try to do something more about the economy. People at work, who build the schools, people at work who pave the roads, people at work who treat the mentally ill, people at work who help those with disabilities, people at work are the economy.

I have listed ten general areas that I leave with you today as just a summary. I wish Governor Bellmon and you and all the other elected officials the finest administration. I hope that I can look back and say that Henry Bellmon, four years from now had the finest four years that any Governor ever had in the State of Oklahoma. I hope I can look back and say this Legislature had the four finest years that any legislature has ever had. I hope I can look back and say the people had the four finest years. To do that we have to make sure that we give them all the opportunity. We have this mandate to educate our people. We always feel compelled to do this for kindergarten through doctorate work. Don't we equally have the mandate to provide to put that education to work? So it is the economy, it's the jobs.

As I give you these lists, I want you to think of a guy who wears many hats. This Legislature honored me by putting a white hat that I wore in the campaign into the Historical Society, I am honored, but I have worn many hats. Many of them will never make the Historical Society because there is a hat as a teacher, a grocery man, a public relations man, a legislator, a Lt. Governor, Governor. But most people only see the legislative hat. They want to know where the Governor is in the legislative arena. The primary responsibility of the Governor of Oklahoma is the Chief Executive Officer of the State of Oklahoma, the manager of the state. You wear the hat of a legislator, the hat of chief executive officer, you are the symbol of this state, you are a representative of the state. Wherever I go as a representative, whether it be in the southwest, southeast, northwest, northeast, Oklahoma City, Tulsa or wherever I go, I am the Governor. It is difficult not to be George Nigh. If you go out of state, out of country, wherever you go you are Oklahoma. It is a hat and you are the representative and I wear it with a great deal of pride and love. You wear the hat of the emphasizer. You get to say here are the subjects we ought to be looking at like water and air, the Yes All Three, the OIFA and all issues we submit to the voters. You get to do those things. I think you are the symbol of a state. I think we had about a year of being down. I am not normally down, I am the eternal optimist. I had a tough time in my life, you as legislators had a tough time and the citizens had a tough time. I was down one day and I was meeting with the college presidents and I went in and said its just gloom and doom, worry-worry. I never will forget I said, "I just don't know what I am going to do. We are going to cut education, we are going to cut higher education, we are going to cut common education, we are going to cut vo-tech, I don't know what we are going to do." And I will never forget the President of OSU, Dr. Boger, standing up and saying "I have got to say something. I don't want to see my Governor down. When my Governor is down the state is down." I accepted that as a challenge that no matter how tough times were, we had to continue to be optimistic and enthusiastic about the future of the State of Oklahoma, just as we are proud of the past.

DIVERSIFICATION

Ten general areas for economy and jobs as the Governor wears these hats. One is the hat of industrial development spokesman. These ten areas I suggest to you in passing. Diversification. Diversification of economy does not necessarily mean bringing in new industry. Diversification in the main thrust is the diversification of the market place of existing industry of the State of Oklahoma — of helping someone, yes, bring in new industry to diversify but taking the industry we already have and market their products so people can be at work. This is why we appropriated the Department of Commerce, the new structure we put in appropriation for government procurement because we can help existing industry get bids on government contracts as never before. This is a highly successful program. Diversification means strengthening the tourism industry, not necessarily trying to bring in new events (this is good), but doing things that build the hotels, motels, restaurants, the gifts shops and the retail stores. Tourism is now the number two industry in the State of Oklahoma. That is diversification. The bill that you passed which just went into effect to say that you have to burn up to ten percent of BCU of Oklahoma Coal in the utilities is diversification. An existing industry Coal had no place to sell its product in Oklahoma. Today we are there because we diversified our economy by creating a new market place for the coal mines in Oklahoma, which adds to the truckers and others. The diversification that we have is critical.

GOVERNMENT ATTITUDE TOWARD BUSINESS

Government attitude is the second area. The government attitude toward business. I stand here today and tell you proudly that we have passed more pro business legislation in the last eight years than any other Legislature in the United States. I don't mean there is not more to be done, but you have repeatedly, particularly in the last three years, passed pro business exemptions, ad valorem exemptions, tax exemptions, job tax credits, whatever it might be pro business, the government structure. If there is anything that is frustrating to a Governor it is the structure of government. I am a history teacher and a history student and I can tell you the populous movement in 1907 created havoc when we came into the Union as a state. In 1987, eighty years later, the populous is still strong in our constitution. We have too many agencies, boards and commissions and duplications. They are difficult to eliminate because the structure is not right. If we could start from scratch we would never structure government like we have today in Oklahoma. But that is difficult and we should not have falling outs over it, we should simply try to improve it.

THE ENVIRONMENT

The environment. Continue to work as courageously on land, wood and water and on Tar Creek. I got a letter today that Tar Creek has been declared the most successful and first completed federal EPA Super Fund Project in the entire region. That is a classic example of partnership between government, private sector and areas in government. The environment, the water, sewage, Water Resources Board, the bond issues.

INTRA-STRUCTURE

The next subject is the intra-structure. We have to keep building the intra-structure. We must keep the highway program going, we must keep other programs of intra-structure going. We have been playing catch-up in Oklahoma for years on the highway system and I can stand here and point with pride that there has been more money spent on highways in this Administration than the five previous

Governors put together. I can tell you that it is seven times the Administration of Raymond Gary just on highway construction yet, there are bridges that need fixing, there are roads that need repair. The number one request that you will get is a road, a bridge, or a highway. In June, we will have approved the one-thousandth county bridge under your county bridge program. But you would be amazed at the number of bridges on the state, county and federal system that are inadequate even with this great progress.

QUALITY OF LIFE

The sixth subject for the economy and the future of the state is the quality of life. The arts, recreation, tourism, education — the quality of life. We can't grow economically if the industrial giants and the small giants of business don't look at Oklahoma as a quality place.

I talked to an industrialist who is looking at a plant in the midwest part of the United States. He said, "How will my kids be treated? I don't want to know about the tax base — how will my kids be treated?

OKLAHOMA WORKFORCE

The seventh area is the workforce. We should always acknowledge that the working man and woman is just really tremendously productive in Oklahoma. We owe them the educational opportunities of retraining to keep pace with the modern world through vo-tech, higher education, and common education. We have an obligation to the workforce.

HOW WE TREAT PEOPLE

Next is how we treat people. I think a government is measured by how it treats people with special needs. Look around and show me how they treat someone with a mental health problem or an aging problem or retarded problem or a crippling problem. Show me those and I'll show you the heart of a state. It's how you treat people. That's why I'm particularly proud in the area of the disabled, the Office of Handicapped Concerns and our work with the aging or our at-home care — with our efforts to bring the mentally retarded out of the institutions. When I became Governor there was one group home for the mentally retarded in Oklahoma. Today there are 68. That was done at a time when Oklahoma City, Tulsa, Midwest City and most of the metropolitan areas of the state had city ordinances against group homes. How do you bring people out of the institutions when cities have ordinances that prohibit you from having facilities? Thankfully Oklahoma City, Tulsa and Midwest City and others have changed their ordinances.

OKLAHOMA'S IMAGE

The ninth area is image — the image of our state, the image of our attitude. I hope you will look around this Capitol — those who are returning. The new ones probably won't appreciate it as much as you. But this Capitol and these Capitol grounds and the Mansion grounds — these buildings, are the image of this State. And I am so proud of the image that we've been able to do here on the Capitol grounds, the Veterans Memorial, the planning, the cleaning-up of the problems that we have here and yes, making the Mansion a public building that is open to the public, one that you can go through with pride. The image of this State is critical.

I think it's particularly important the image of this State in other areas like health care. I stand here today and share with you pride in the Health Center just south of here that's one of the ten finest health centers in the United States. I stand here image-proud that we have the finest number one veterans

program in the United States of America. In image we have the finest vo-tech system this country has ever seen.

OUR ATTITUDE

But the tenth one is the attitude. If we're going to have economic development recovery, we need to be concerned as Oklahomans and as government officials with attitude. We're proud of our football teams. Every coach in every locker-room, every athlete has always heard, whether the team is wrestling, football, baseball or track "don't get your dabber down." It may not be very "chief executive" of this State; it may not be very gubernatorial but that's the facts of life, folks. We can't let ourselves get down and stay down in attitude and hope to recover. We need to concentrate on what pulls us together, not what pulls us apart.

OKLAHOMA NEEDS A CHEERLEADER

There are always those who want to characterize somebody else. I'm never one of those. I don't like to say "she did this because of this or he said this but what he really means is this." I don't do that. A lot of people characterize you differently. I want to close by saying that one person one time really thought he was cutting me to the quick by saying "well what Nigh is — is a cheerleader." What this State needs is a cheerleading attitude that we're proud that we're Oklahomans — that if God had intended for us just to be average, we would have lived somewhere else. As I told you last session, we're excited about this State. We're pleased with, yes, the opportunities that we've had as trying as they might be. We'll accept that trust, we'll accept that challenge. We will be positive. The glass can be half-full rather than half-empty. The more we sit around and doom and gloom and worry, the harder it will be. And every time we try to do something in economic development, there are those who step forward and criticize and we can't stop to answer criticism. You've got to keep going.

Yes, I want to be a cheerleader for Oklahoma. I'm proud to have a positive reputation. I want to, as a private citizen with you, be a part of that positive attitude that true Oklahomans, whether born here or have moved here by choice — true Oklahomans, proud of their state have.

I LOVE OKLAHOMA —
I LOVE OKLAHOMANS!

What can I say to wrap up a farewell. I think Thomas P. Gore, the blind United States Senator from Lawton said it best when he left the nation's capital to return to Oklahoma. He said "I'm proud of Oklahoma. I'm proud of her past. I'm confident of her future. I love every blade of her grass. I love every grain of her sand. I'm proud of her past and I'm proud of her future."

I love Oklahoma. I love every grain of her sand. I love every blade of her grass. I'm proud of her past and I'm confident of her future. If we're not confident and we're not excited, who in the world is going to be?

Jobs. People at work. I love Oklahoma. I love Oklahomans. I appreciate this opportunity that you've given me to participate. I hope that I will be judged as having made progress. And to you again, what I said in the beginning, I say in the end — Thanks . . . Thanks.

COMMUNICATION

January 7, 1987

Honorable Rodger Randle
President Pro Tempore
Oklahoma State Senate
State Capitol Building
Oklahoma City, OK 73105

Dear Senator Randle:

With the change in administration, it is customary to return all interim appointments requiring Senate confirmation to the new Governor. This is also my belief of how it should be handled.

Therefore, this letter is an official request to withdraw all interim appointments made which require Senate confirmation.

The nominees are aware of this procedure as at the time these appointments were made, nominees were informed it was considered an "interim appointment" and would be returned to the new Governor for his consideration and actions.

Thank you for your cooperation in this matter.

Sincerely,

/s/ George Nigh

INAUGURAL ADDRESS GOVERNOR HENRY BELLMON

The time has arrived for re-establishing a formal political relationship between myself and the citizens of Oklahoma. This relationship began with my election to the Legislature over forty years ago. These forty years have seen remarkable change and progress in our great state and the *best is yet to come.*

During these forty years a half million students have earned degrees at our colleges and universities.

In 1946, 40,000 students were enrolled in our higher education system. Now there are six times as many.

Over nine hundred miles of interstate highways have been built since 1946.

Over 150 new airports have been opened in our state.

Four Oklahoma-born astronauts have travelled into space.

The Kerr-McClellan Waterway has been put in operation and forty-five million tons of freight have moved on this system.

Over one hundred million tons of coal, almost eight billion barrels of oil and more than fifty trillion cubic feet of gas have been produced from our storehouse of natural resources.

Millions of tons of agricultural commodities have been produced by Oklahoma farmers and ranchers to help feed the hungry people of the world.

Two Oklahomans have been chosen Miss America and Miss Teenage America currently resides in Edmond.

Oklahoma's athletes have won dozens of national championships and numerous olympic medals.

One hundred thirty-three Fortune 500 companies are operating successfully in forty-two of our counties. Due to the productivity of Oklahoma workers, many of these plants are among their company's most efficient and profitable.

Per capita income in Oklahoma was one thousand dollars then compared to twelve thousand dollars in 1985. Truly Oklahomans have been high achievers in the past and we will continue to be in the future.

Forty years ago, racial segregation was a common practice. Great stress, injustice, and intolerable waste of precious human resources resulted. Now, though more remains to be achieved, all races work and reside together in relative harmony.

The role of women in society, and especially in the workplace, has changed dramatically. Society must learn to better accommodate this new reality.

Polio and other diseases that once struck panic in the hearts of parents are no longer threatening, though much remains to be done in the health care delivery field as new problems arise.

Forty years ago computers were unknown and jet airplanes and television were not in common usage. Together they have made the world smaller and more cohesive and have vastly increased the spread of knowledge.

On the national and international level, the Korean and Vietnam wars have been fought but thankfully the worldwide nuclear holocaust so dreaded for a time has not occurred. World War three seems less and less threatening.

Change and progress, sometimes slow and steady, sometimes rapid and dramatic, has been and will be constantly with us. We have had our good years and our bad years but the trend is upward and onward.

The role of government is not to oppose change, for that would be futile, but to provide guidance and to create a climate in which constructive new development can occur.

Oklahoma is increasingly impacted by national and international changes over which we have little control. We must accept this fact and resolve to compete.

Our state cannot repeal laws of economics. We can and must strive to make the necessary adjustments as painless and positive as possible. It is not enough to turn aside when we see our neighbors crushed by events over which they had little warning or control. The state has a responsibility to aid displaced workers in gaining new skills and finding new opportunities.

These have been an exciting, adventuresome, pioneering forty years in our state, in our country and worldwide.

They have brought change and challenge and they offer future opportunity. We must seize this opportunity or be left in the stagnant backwater of time.

How do we go about assuring our state a full and fair share in the opportunities and advancements the *next* forty years will bring?

There is only one answer . . . *through excellence.*

Oklahoma must become a "State of Excellence".

When one looks at the past, the lesson is plain. Brain power is driving today's world and will even more be the decisive force of the future.

The challenge to the Bellmon Administration and to my colleagues in government is to create, here in Oklahoma, a new *STATE OF EXCELLENCE:*

Excellence in our educational system at all levels

Excellence in the classroom

Excellence in our laboratories

Excellence in every aspect of government

Excellence in our business climate

Excellence in the development of our natural resources

Excellence in the preservation of our environment

Excellence in our quality of life

Excellence in human relations

Excellence in the arts

Excellence in the workplace

Excellence in the institutions we support

Above all, Oklahomans must develop an attitude which expects, anticipates, even demands, the achievement of excellence. Our goal is that Oklahoma will come to be known as a *STATE OF EXCELLENCE*. Oklahoma — none is better. Let's make Oklahoma a proud state — proud of our pioneer past and confident of a thriving future.

Let me say to all my elected colleagues in government, our challenge is to conduct ourselves and to make our decisions in a manner that will contribute to and not detract from our *STATE OF EXCELLENCE*. In a free society, citizens will only willingly support a government they trust and respect.

The *perception* of excellence is of utmost importance. The state of our economy demands that we attract outside investors to assist in the creation of jobs. Those who select the sites for new endeavors are drawn to areas where well-educated, productive workers labor in an atmosphere conducive to excellence.

The products of our offices, farms and factories move in a world market where only the best survive. We must build a reputation that if it comes from Oklahoma, it is the best. This is a job for all of us.

The conditions we face offer us little choice but to excel in all our endeavors.

Our state is confronted with near crisis conditions in its finances, in banking, on our farms, in the oil fields, in agri-business, in real estate, in construction, in our state of mind. These conditions are temporary and transitory. How soon and how well we recover depends to a significant degree upon decisions elected officials are called upon to make in the months immediately ahead.

Economic problems in Oklahoma are non-partisan problems. Both Republicans and Democrats are unemployed. Both Republicans and Democrats pay taxes. Both Republicans and Democrats attend our schools and drive on our roads. Both Republicans and Democrats are losing their homes, their farms, their jobs, their businesses. Republicans and Democrats have an equal stake in our future prosperity and growth. All elected officials must work together as Oklahomans for the good of Oklahoma. The solutions to our problems will not carry a partisan label. When we succeed, there will be credit enough for all. We cannot tolerate the thought of failure.

Let it never be forgotten that representative government is the servant, not the master of men.

Franklin Roosevelt once said, "Our Government is not the master but the creature of the people. The duty of the State toward the citizens is the duty of servant to its master. The people have created it; the people, by common consent, permits its continual existence."

The scriptures make the point even more emphatically. Mark 10:44 reads: "Whoever wishes to be a leader among you must be servant to all."

I repeat my pledge made from this platform twenty-four years ago: I cannot promise you four years of ease and relaxed responsibility. I do promise you four years of hard work, full respect for your rights and opinion, and a deep concern for the well-being of our State. I trust I shall merit your approval and be worthy of the confidence you have placed in me as we work together for excellence in Oklahoma.

by President Kerr and delivered the following message:

MESSAGE OF GOVERNOR HENRY BELLMON

Mr. Speaker, President Randle, Ladies and Gentlemen of the House and Senate, Members of the Staff, fellow citizens.

We meet today in an atmosphere of high anticipation. The elections, which brought claims and counter claims, promises and challenges, hopes and fears, are behind us. The excitement of last week's inauguration and swearing in ceremonies created renewed optimism and raised expectations. It's time to get on with the business that brings us to our Capitol City — the business of governing.

Some of us have been involved in government for many years. It might be well to step back and review what government is all about. The dictionary defines government as "the political direction and control exercised over a nation, state or community." Then it uses other words like authority, organization, laws, system — legislative, executive, judicial.

But increasingly government is assuming a broader though less intrusive role. It is passing back to its citizens more and more responsibility for their individual decision making and well-being. In doing so government is assuming more and more responsibility for preparing these citizens to be productive and for creating a climate in which individuals can develop their talents to the maximum.

An example is the emphasis upon excellence in education. Responsible citizens must be able to make informed decisions and be equipped with skills needed to compete in an ever-changing world.

The economic and ethical climate created by government is of vital importance. No matter how well educated, how willing to work, or how productive our citizens are, a state cannot progress unless it creates a climate conducive to entrepreneurship and job creation. It benefits Oklahoma little if we produce highly trained young people who are forced to migrate to other states to find jobs.

Ours is the difficult task of balancing the level and quality of essential services with the burden we place upon our citizens who must pay the costs of these services. As elected officials, we must carefully weigh the benefits of programs we fund against the injury we do to those we tax to pay the costs.

We must select the range and level of services we provide and then carefully choose the means of paying the costs. At the same time, we must design the delivery of our service in a manner which insures excellence and avoids waste and duplication.

These are the guiding principles behind the specific legislative proposals which follow. This list is long — even so it may be incomplete.

As your Governor, I stand ready to work with you to add, deduct or amend in ways which will better accomplish our goals.

The first order of business is to avert the revenue failure which will develop this spring. Compounding the revenue failure problem is the fact that a responsible budget for fiscal year 1988 cannot be developed based upon the projected FY 87 ending cash reserve. It is imperative that responsible remedial action be taken promptly. There is need for early action on these budget reconciliation proposals since

the longer we delay, the more severe the adjustments become.

Today, as in earlier discussions with legislative leaders, a three percent annualized cut across the board for all state agencies has been recommended. In addition, reduction of the state's contribution to employee retirement, combination of the Department of Human Services and General Revenue Funds to ease cash flow difficulties, abolition of the unneeded and unused Pension System Reserve Fund and a 6-cent per gallon increase in the gasoline tax, to be effective March 1 is proposed. These measures will deal with the fiscal emergency we have inherited. After these immediate steps are taken, we can begin to plan ahead.

Virtually every problem our state faces would be improved by aggressive economic development.

Our economic goals are for our citizens income to exceed the national per capita level on a consistent basis, with citizens in every county an active participant in that achievement.

In pursuit of economic success, we must think as Oklahomans, without reference to city or region. Provincialism must be discarded, and recognition given that success in any locale is an element of success for all.

To maximize the effectiveness of our efforts, we must create a business environment that in unexcelled in the United States. We must recognize that solutions to our problems will not come from government, rather they will come from the efforts of our people. The responsibility of government is to create a climate in which free enterprise can flourish. Abundant private capital is available for investment in Oklahoma enterprises once a healthy business environment has been established.

We must reduce the cost of workmans compensation coverage to a nationally competitive level. Our objective should be to achieve this competitiveness through the most efficient possible delivery of workmans comp coverage along with an intensive program of safety checking and training, perhaps through our vo-tech system. Further reduced rates should be awarded to companies with outstanding safety records, and never should the cost reduction be through mistreatment of deserving workers.

Oklahoma's workers' compensation rates have been identified in a number of studies as a detriment to economic activity in Oklahoma. The changes made last year stopped short of what is needed. The main problem with our existing workers' compensation system is that it remains an adversarial system. I urge the Legislature to eliminate the adversary nature of Oklahoma Workers' Compensation by changing from a court to an administrative system and by creating an independent medical board to determine the extent of injury. This should in no way reduce an injured worker's ability to collect for workers' compensation. It should provide greater uniformity and fairness in the disposition of these claims.

Further tort law reform is needed to tell the nation that doing business in Oklahoma will be in a fair legal environment. The world should know that we will not tolerate abuse of our legal system for the enrichment of a few at the cost of many. We call on our legal profession to study and alter our judicial system with the goal of maximizing the speed of trail, minimizing the cost to litigants and setting a new standard in America for the fairness of our legal processes.

But we cannot wait for others to act. Last year, the Legislature enacted tort reform in order to make the results of civil trials

fairer. More needs to be done. I recommend legislation to allow full recovery for economic damages but to cap non-economic damages at $250,000, and award punitive damages — which were never intended to be compensation of plaintiffs — to the state and counties, abolish joint and several liability, give judges the discretion to award attorney's fees to the prevailing parties in lawsuits, and toughen the requirements that attorneys make certain the suits they file are meritorious.

Citizens — all across Oklahoma — are concerned about the lack of a right-to-work law in Oklahoma. The Firestone Plant controversy accentuates the need for action on this issue. A number of right-to-work bills have been introduced. My first choice would be to sign a right-to-work bill that calls for a popular vote on the issue. If the Legislature passes a statutory right-to-work bill, I will sign that. My administration will work with the Legislature to assure prompt resolution of the right-to-work issue this year.

In a further effort to attract new corporations to Oklahoma, I propose legislation to limit corporate directors' and officers' liability to complement our newly passed corporation code.

We must develop a system of taxation that encourages the formation of capital and the creation of jobs, emphasizing use and consumption taxes. The burden of taxation must be fairly and equitably distributed, and fairly and equitably enforced. Moreover, it should produce consistent and predictable revenue, without the fluctation typical of taxes based on extraction or exploitation of natural resources. As soon as possible, we must repeal taxes that drive away our high achievers.

I recommend that the Legislature repeal the 1986 Corporate income tax increase, reducing the rate from 5% to 4%.

Along with these changes in the law to encourage business growth and relocation in Oklahoma, I have established in the Governor's office a one-stop answer and service desk for our state. We will propose legislation to add to its effectiveness if experience demonstrates the need.

While we are concerned with the industrial aspects of our economic growth, we must give attention to the plight of our farmers. Legislation memorializing Congress, through the Farm Credit System, to bring interest more into line with current cost of capital is needed. Oklahoma is experiencing many farm foreclosures which could be averted by creative refinancing of farm loans. New ventures in agriculture to move Oklahoma away from heavy reliance on producing low value raw materials must be a high priority.

Our universities should become active partners in total economic progress, identifying opportunities, providing analysis, guidance, management assistance, using research results to encourage development of jobs and income.

Action by the Legislature supporting imposition of a federal oil import fee to assure domestic crude oil of at least $22 per barrel would help assure our nation a reliable source of energy for national defense purposes. In addition, it would help insulate Oklahoma's economy from manipulation by O.P.E.C. and stabilize revenues to our state treasury. A resolution to accomplish this objective will be introduced.

The Task Force on Higher Education created by the Legislature has recommended the consolidation of our present 21 boards of regents into 5 boards. I endorse this rec-

ommendation and am submitting a bill to accomplish this objective. Experience has shown that under current conditions, boards have difficulty keeping track of finances, avoiding costly duplication of programs, and maintaining high quality education. Increasingly, revelations by the State Auditor indicate that conditions in the higher education system are at best careless and at worst highly unsavory. It is obvious that current authorities' methods concerned with financial oversight and management leave much to be desired. While the existence of a constitutionally created board make the situation complex, it is absolutely clear that the Legislature and the administration have a responsibility to look carefully at past and present methods used by the higher regents in managing the very large sums of money at their disposal. I welcome the opportunity to work with the appropriate legislative groups to bring competence and integrity to our system of higher education. There is little likelihood of achieving excellence in higher education until confidence in the system is restored.

Consolidation is also needed for the three Oklahoma City area junior colleges. Rose State, OSU Tech and Oklahoma City Community College must operate as one coordinated unit.

The higher education task force's report contains many other recommendations which I heartily endorse. Among these is the task force's proposal that the University of Science and Arts of Oklahoma be phased out. I have requested the Secretary for Education to seek alternate use of the facility in Chickasha. It may be suitable as a math and science high school for gifted students, a law enforcement training center or as an academy for state employee training. Every effort will be made to find a use for these excellent facilities and for a continued payroll to assist the local economy.

I propose phasing out the School of Dentistry at the University of Oklahoma and using those funds at the O.U. Health Sciences Center for other activities. A loan program will be created whereby Oklahomans who wish to study dentistry in other regional institutions be assisted in doing so. I am also proposing the School of Osteopathy in Tulsa be phased out, and funds currently allocated to that activity will be redirected to a free-standing four-year college in Tulsa. Loans will also be provided to Oklahomans who wish to study osteopathy in other schools in the region.

I have pledged not to reduce education spending in FY'88, and the budget I will bring next week meets that pledge. However, I feel that we need to change direction and focus on how we allocate state money for elementary and secondary education.

The present system of providing state support for primary and secondary education has serious flaws. The system of providing state funds has developed into a serious disincentive for local districts to provide needed support. Incentives need to be provided so that local school officials will be encouraged to provide a higher degree of excellence in their school systems. I am offering a proposal to accomplish this objective.

The proposal will allocate available state funding on the basis of capitation with the provisions that state dollars be used to support education in the basic subjects. This bill represents the work of many individuals from many disciplines and has broad support among those who have worked on the proposal. This represents an important new initiative which I believe will go far toward assuring excellence in public education.

The state's role in funding elementary and secondary education should be concentrated on core subject areas. Enrichment

courses, should be the responsibility of local districts. The specific courses which we propose to be considered core subject courses, and for which state funds would flow to local districts, are attached. I recognize that one person's concept of a basic subject may be different than another and this matter will need to be considered in your deliberations. Let me, however, clear up some potentially confusing discussions of this general topic. It is not the intent of this proposal to direct local school districts to fund any certain courses. Rather, the enrollment level in these basic courses will determine the number of dollars that will flow to the individual districts. I firmly believe that local districts should determine what courses they offer and maintain control of funds that are allocated to them. This proposal simply is a method by which the number of dollars that the state pays to local districts is determined. A printout showing the impact of this proposal on individual districts is available from the State Department of Education.

I am proposing that the Common School Fund be activated and that host school districts receive allocation of funds from locally generated public service property tax revenues at a level equal to 11/2 times statewide capitation level. This will allow those districts that have excessive public service property revenues to retain a significant portion of these revenues but will eliminate the gross inequities that exist in a few districts.

My budget message will provide greater detail, but I do want to indicate to you in this legislative message that I will be proposing shifting more of the burden of funding state government to the users of these services. This will allow a reduction in appropriation levels by some $180 million and reductions in authorized FTE's (full time equivalency) employees, of more than 1,000. Many of these positions are presently vacant. Other reductions can be absorbed by attrition.

Streamlining state agencies, boards and commissions is needed. I propose eliminating some 16 boards, commissions, or agencies and consolidation of the Department of Tourism and Recreation with the Department of Commerce. Special emphasis will be placed upon rapid development of Oklahoma's considerable tourism assets, private and public, to assist in our overall economic development.

Further, I propose the sale of the state lodges in an orderly manner so as to encourage investment to enhance their attractiveness under private management and to put these facilities on the property tax rolls in the communities where they are located. I propose creating a new Department of Parks.

As we accomplish economic recovery in our state we will strive to protect for all future generations the best features of our national heritage, wildlife, the tallgrass prairies, rivers, mesas, hardwood forests and other natural areas. Toward this end I will recommend the establishment of a public/private partnership to be used to purchase limited amounts of our most outstanding natural areas for education, enjoyment and recreation of present and future Oklahomans.

In addition, to better develop our national resources and assist our economic development, I ask the Legislature to empower the Governor to negotiate with the U.S. Corps of Engineers for the purchase of Corps projects, subject to final approval by the Senate and House.

Over the years, a highly inequitable system of providing service to a select minority of veterans has developed. Some nine hundred of Oklahoma's over 400,000 vet-

erans are being provided preferential care in costly veterans homes. I propose that the Department of Veterans Affairs be phased out and that current clients be cared for in nursing homes or in under-utilized wings of local hospitals where they can receive the same quality care in their home communities and at reduced cost to the State of Oklahoma.

Phasing out two veterans centers will allow use of this space to meet the increasing burden placed on our corrections system by prisoners convicted of drunk driving or substance abuse.

Prisoners convicted of drunk driving or substance abuse comprise the fastest growing segment of our prison population. Constructing new prisons is extremely expensive. Utilizing the facilities at the Department of Veterans Affairs to house such prisoners is a responsible use of scarce resources.

Drugs are an insidious invader throughout America. Oklahoma is no exception. Illegal drugs have spread their poison throughout the web of society, striking practically every city, town and neighborhood. It is robbing our state of some of our brightest minds, crippling many young people and contributing to the proliferation of violent crimes and adding to social costs.

The drug menace must be attacked on every level. We will be proposing specific programs for schools and community calling for teamwork. We can and must win this battle.

In order to reduce prison population and cut the crime rate, more effective efforts needed to be devoted to rehabilitation of juvenile offenders. This subject will be dealt with in my budget message.

We must more selectively reduce the prison population until we have the opportunity to expand the corrections facilities. We must limit release of violent offenders rather than surrendering control to a mindless cap law which sometimes fails to make meaningful distinctions between types of prisoners.

To accomplish this goal of keeping violent offenders locked up, we must increase bed space and incarcerate fewer minor offenders. I propose that the felony limit for hot checks be raised to $1,000. Persons convicted of writing small hot checks should be making restitution to their victims rather than draining $12,000 a year from our corrections resources and taking cell space from violent criminals.

In the area of criminal law, perhaps the single most important action we can take is to expand our Court of Criminal appeals from three judges to five so criminal appeals — including death penalty appeals — can be speeded up.

I propose merging the Department of Public Safety, the State Bureau of Investigation, the Bureau of Narcotics and Dangerous Drugs, and the state medical examiner into a new Department of Law Enforcement. Coordination in these activities would thus be enhanced increasing the return on the tax dollars spent on these activities and making law enforcement more effective.

The Ethics Commission which was created by an act of the Legislature in 1986 has served a worthwhile purpose. However, experiences to date indicate that amendments are needed in this important law. I will shortly submit a bill proposing recommended changes.

Let me reiterate that unethical conduct will not be tolerated in my administration.

Officials who come under investigation for allegations of serious wrong doing will be suspended immediately. Convicted officials will be fired, whether or not their convictions are appealed.

To prevent unwise or unethical practices from damaging the credit worthiness of our state, we must enact stringent control over state trusts which until now have operated with little oversight. Newly passed federal laws make this need ever more imperative. I recommend the creation of a single "master trust" which would have authority to examine and approval all projects proposed by our existing state authorities and which would become the sole issuer of state debt instruments. This authority would be composed of the Governor, the Attorney General and citizens appointed by the Speaker, the President Pro Tempore and the Governor.

In a related matter, we must establish an advisory committee and seek an independent external analysis of the tenuous financial condition of the Grand River Dam Authority. The review should be conducted by a team of recognized experts in the area of power generation including the following:

1. A nationally recognized power engineering firm
2. An independent management consultant
3. A nationally recognized financial advisor to advise on the restructuring of the Authority's indebtedness.

The power engineering firm would examine the overall conditions of GRDA's physical facilities.

The engineer would work with the management consultant to analyze the rate structure and make rate structure projections. The independent financial advisor would review and project debt structure of the Authority and agree not to become an underwriter in the event future bond sales are undertaken.

I urge authorizing the expenditure of $250,000 for this purpose. Since many legal questions will undoubtedly arise, it is my recommendation that the study be conducted under the auspices of the Attorney General's office. The credit worthiness of the state is at stake. Should the GRDA default on its debt service, Oklahoma's standing in financial markets would be badly damaged or the Legislature would need to appropriate funds to avoid this eventuality.

The operation of the Tax Commission under the three-member commission has impaired the efficiency of the agency and reduced its effectiveness. To correct this problem, I recommend the creation of the office of Director of State Revenues. The Commission would continue as an appellate body.

In a desire to more effectively serve our citizens, I recommend the consolidation of various regulatory agencies into one Professional Services Administration. Current professional board and commission members would be retained as advisors in specific fields of endeavor.

I propose that we create executive fellowships providing opportunity for managers from the private sector to come into state government for up to one year. This would allow private and public sectors to exchange expertise on a continuing basis. This program — already in use in other states — can increase mutual understanding and bring current private enterprise ideas and methodologies into state government.

Over the past few years, many executive orders have been issued mandating certain actions by state agencies. I will review these orders and rescind those which are obsolete or too costly for the benefits pro-

vided. I ask the Legislature to also review its mandates to state agencies and abandon those that are no longer needed or are overly expensive.

In order to help strengthen the ability of cities and towns to meet their growing infrastructure needs, I am recommending legislation to authorize the creation of regional authorities to provide water storage, treatment and delivery services, sewage treatment facilities and waste disposal.

To improve county highways, I recommend turning control of funds in the County Road Revolving Fund and County Bridge Programs back to the counties provided that they employ a qualified county road administrator who would operate a unified county-wide road maintenance and construction program under the direction of county commissioners.

Many specialized state services go directly to individuals who are both willing and able to pay. It is appropriate for the costs of these services to be covered by user fees. This ties the cost of the public service directly to those citizens who use those services. Users can thus select those public services they wish to pay for and those they choose to do without.

With present economic problems, a growing number of our citizens are without regular income. We must take seriously the plight of the hungry, the homeless, the destitute and move to eradicate poverty and illiteracy from our borders. I have proposed a special $500,000 program to begin the process of guaranteeing that all Oklahomans can read and write.

The farm crisis is very real. Efforts will be made, in concert with other farm states, to secure national and international action to improve the rural economy. For families which have already been dispossessed, further effective retraining and job creation programs will be established.

Oklahoma is a state rich in natural resources — oil, gas, coal, wood, fertile land and water. But its greatest resources are human resources; men, women, children and families.

Human potential must be nurtured, stimulated and developed in order to create productive citizens who are contributors to society.

Families with female heads now have a poverty rate six times that of two-parent families. In spite of the fact that many women work full time outside of the home, they are still painfully poor. The justice of a community is measured by its treatment of the poor and powerless in society.

I pledge this administration to the provision of equal opportunities and fair treatment of all persons. We affirm the dignity of every woman, man and child — whatever his age, whatever his origin, whatever his race or religion. We must better utilize the wisdom of our elders and protect the innocence of our children.

Families are the backbone of our nation and state. Our strong families have been the first line of defense in times of trouble and a life-long support for each other.

We depend on families to build strong character in our children, to instill in them the traits of honesty, integrity, industry, courage and perseverance which will make them good citizens. We must do more to strengthen the families, to teach parents how to be parents. Our major assistance program, however, is administered in such a way that it forces the destruction of many Oklahoma families. Currently, Aid to Families with Dependent Children is available only if one parent leaves the family. I pro-

pose AFDC to qualified two-parent families in the belief that by temporarily supporting intact families we can improve the lot of our poor and reduce our welfare rolls more quickly.

Federal law was changed in 1986 to give states the option of providing medicaid services to pregnant women and children under one-year old, whose families' incomes are below the federal poverty line. This "unhooks" the eligibility for medicaid from the eligibility rules for AFDC benefits.

By taking advantage of this new flexibility, Oklahoma can make major gains in improving pre-natal and early childhood care. Improved care will, in turn, reduce premature births, other low-weight births, and other pregnancy-related complications.This will prevent substantial hardships and suffering for the families involved and save significant amounts of money for the state in the years to come.

I commend especially those churches, private nonprofit agencies, government agencies, and individuals who are making valiant efforts in order to provide food, clothes and shelter in seeking to meet the needs of the poor among us.

We must do more, we must attack the root causes of poverty — lack of skills, discrimination, ill health, family break-up, structural disincentives — through additional vocational education, expanded accessible and affordable health programs and a guarantee of equitable opportunities for all. We must do more to provide health services to our poor throughout the state. I propose creation of an indigent health care fund that would be distributed to hospitals all over Oklahoma to provide for the health needs for those unable to pay.

Recent Supreme Court decisions uphold the authority of states to require employers to provide maternity leave. I will submit legislation to assure Oklahoma working women this right.

The Oklahoma State Constitution requires submission to the people each 20 years of a procedure for a constitutional convention. The year 1987 brings the time in which this procedure is due. In order to properly understand the changes that need to be made and to develop a proper procedure, I recommend that an appropriation of $150,000 be made to provide staffing for a constitutional revision study committee. The commission will be expected to complete its work and deliver a report to each House of the Legislature on or before May 15. It will be necessary for the House and Senate to act promptly. At best, it may require a suspension of the rules to permit receipt of the report and the introduction of any required legislation.

Mr. Speaker, Mr. President, I have outlined a comprehensive legislative program to help our state move ahead in many areas. As I stated earlier, due to the limitations of time, it may be incomplete. I look forward to working with members of the House and Senate in developing a bipartisan, effective, efficient and respected system of governance for our great state.

As elected officials, in this difficult time in Oklahoma's history, we face stern challenges. We are equal to the task before us. By working together, I am convinced we can create a "state of excellence" in which all of our citizens can achieve, compete and excel.

Governor Bellmon was escorted to the Speaker's rostrum by the Joint Committee, where he was presented to the Joint Session by President Kerr.

Governor Bellmon introduced his wife, Shirley, First Lady of the State of Oklahoma.

The Chief Executive delivered the following Address to the Joint Session:

MESSAGE OF GOVERNOR HENRY BELLMON

We've got a problem, you and I — and we asked for the right to help solve it. The problem is that next year Oklahoma will have 363 million fewer dollars to use in paying for essential services than was available this year. That is a 16 percent reduction.

Because of the Balanced Budget Amendment, we have to solve our problem now! Unlike the federal government, we cannot run a deficit and pass the bill on to our kids or grandkids or great grandkids. We have to be responsible.

I'm proud of that fact and I hope you are too. I am also certain that this legislature and this administration is equal to the task and that the people of Oklahoma will give us their understanding and support as we do our job. Remember, I said the people of Oklahoma — our constituents, our voters — not necessarily the narrow special interest groups, some of whose sacred cows are in danger of being gored.

As I prepare to discuss our problem, I am reminded that sometimes, when we are up at the farm, Shirley and I sit out on the porch and listen to the coyotes howl. Now they don't howl for our entertainment or because they are interested in our best interests. They are howling across the hills because they want something to fill their gut — a lamb, a new-born calf, a few laying hens.

When you hear the howling that this budget will — already has — generated, ask yourself where the howls are coming from. I believe you will find most of the racket will come from the coyotes among us. Those who have grown accustomed to regular raids on the taxpayers hen house.

When the heat is on — as it will be — think about who sent you here and why. I believe you will agree we were elected to serve the interest of our voters. We should concentrate on what is good for Oklahoma and not what the special interest groups want.

Knowing from personal experience that budgets are not among the more stimulating documents legislators are called upon to read (though, if you take the time, you will find this one somewhat different) it is thought to be prudent for me to come before another joint session to briefly discuss the FY 1988 budget proposals. I thank the leadership for allowing me this time. Parenthetically, let me say that with all the

journalistic turmoil this document has already generated, my appearance is somewhat anticlimactic. We hear a lot about ethics in government — maybe some attention should be paid to ethics in journalism.

For those of you who were here last Tuesday, let me assure you that this message will be mercifully short. Even so, there are several points which deserve to be emphasized.

As I begin, I wish to commend Dr. Lex Holmes and the highly professional and dedicated staff of the State Finance Office for their proficiency. I thank them for the extraordinary effort they put forth in preparing this budget. Dr. Holmes, ever the Professor, has cautioned me to read this message slowly. What he doesn't understand is that when you have bitter medicine to take, the sooner you can get it over with the better. There may be a moral there for all of us. Thanks Lex!

As always in the first year of a new administration, this budget has been prepared under severe time constraints. I wish to thank legislative leaders for their forbearance in agreeing to this date for the budget message. There may be additional recommendations which will come after further study.

The state's difficult financial condition is the driving force behind this budget. There are several steps which need to be taken in logical order to cope with our approaching crisis. Please allow me to enumerate these once more.

1. Action needs to be taken to deal with the emergency which will be triggered by an April revenue failure and the need for building a fiscal year 1987 ending reserve. This plan has already been presented in the budget reconciliation proposal of last week.

2. In order to earn the public confidence needed to support a tax increase, it is essential that identifiable areas of waste, duplication, and abuse be eliminated. Otherwise, we cannot expect the public to support measures to raise necessary revenues, I would caution individual legislators that before you take positions against these reform proposals that you make certain where you will get the additional funds. This is a balanced budget and if we add spending in one area, we must compensate elsewhere.

3. In the same vein, the $363 million revenue shortage (16 percent of current operating levels) mandates that every effort be made to identify low priority services and areas where needs have changed and to transfer those resources into areas where needs are more immediate or essential.

4. Once the scale of our financial problem is identified and fully understood, we must agree on how to raise more revenue. The objective must be to find the fairest, best balanced, least damaging tax or taxes available and apply them in a timely way.

5. Once the above steps have been taken, I look forward to working with the Legislature in focusing on the long-term needs and opportunities of our state.

Please allow me to say a few words to my Republican friends and others who have opposed tax increases in past years. Many of you have done so on the solid ground that it is wrong to raise taxes until wasteful spending practices are corrected. Let me give you my full assurance that this administration will make every effort to eliminate such practices and make state government as lean and efficient as possible. I believe the legislative program already presented and this budget demonstrates that to be the policy of this administration. You can expect further executive action where authority exists. When and if necessary, I will

return to the Legislature to ask for needed support or authority.

This administration is moving to eliminate wasteful or illegal uses of public funds wherever and whenever such conditions are found. These actions are not only prudent but are also necessary to build the public's confidence in their state government.

Once voters are convinced of this, I believe you can, in good faith, vote for needed tax increases and anticipate that the majority of your constituents will support such actions. The alternative to a tax increase is a devastating cut in such essential services as education, highways and prisons. If they occur, these acts will anger constituents even more.

The plain fact is we are in a box — a box not of our making. Boxed in on one side by a huge revenue shortfall due to our current economic downturn over which we had no control.

Boxed in on the second side by the need to maintain and improve services to assure economic recovery and growth.

Boxed in on the third side by the fact that in many other states, the economy is still strong. We cannot compete for the ablest teachers, professors and researchers unless our salaries are competitive.

Boxed in on the fourth side by increased demand for services due to the social pressures which always come with economic hardship.

We have no choice but to make adjustments. These adjustments include both tax increases and reductions in spending. In the future, when economic growth brings increased revenues, and after the full impact of federal tax reform is felt, we will examine the possibility of a tax reduction. That concludes my comments for those of you who find it difficult to support a tax increase.

Now I want to say a few words to state employees. We all must make extraordinary efforts to be efficient in the provision of essential services especially during this difficult time. We are anticipating a reduction in the number of authorized FTE's, though this does not of necessity involve firing dedicated state workers. Many of these positions are presently vacant and other reductions can be achieved over the next seventeen months through attrition.

Where reconfigurations occur and employees are displaced, they will be given priority consideration in filling state jobs. As has been said before, I believe our state employees on the whole are dedicated public servants. The financial circumstances we are facing dictate that each employee must work even harder, be more efficient and be especially considerate of their clients' needs. In this way, we can achieve excellence in state government and gain the public confidence needed to support responsible government programs.

The uncertainty surrounding past state budgets has created both anxiety and instability for state employees. This proposed budget provides for the elimination of all furloughs in the Department of Human Services. Further, through adoption of the budget reconciliation proposal and the measures contained in the fiscal year 1988 budget, adequate funds are provided to avoid further revenue failures. Oklahoma's image has been hurt by widely publicized stories of repeated financial crisis. This budget is intended to bring an end to this condition.

Properly presented and understood, these proposals can be looked upon as a wise investment in the future of our state. The bulk of these funds will go for the education of

our children, the control of crime, the improvement of our transportation system and for economic growth and development.

You will notice that the format of this budget differs from previous Executive Budgets in several ways. First, in compliance with the Executive Branch Reform Act of 1986, the budget is organized in accordance with designated, but so far unconfirmed, cabinet secretaries. Each agency is grouped under the cabinet office to which it is assigned. The assignments took into consideration the recommendations of the Reorganization Council's careful work during the interim.

Second, you will note that I have included a "FY 1989 Proposed Target" for each agency. It is my belief that long-range planning in state government must begin through the budget process. Only where budget targets can be seriously established can we expect our agencies to participate in budget development in a responsible way. Otherwise, all they produce are useless "wish lists". The process of establishing budget targets will be further refined in future years when more time is available for budget preparation.

Finally, you will see that this Budget contains numerous explanatory footnotes. These are included to provide a brief explanation of the changes recommended. Again, in future years the use of footnotes will be expanded to provide a more thorough explanation of the policies proposed through the budget process.

In order to provide a balanced budget in accordance with Article 10 of the State Constitution, and Title 62 of the Oklahoma Statutes, several measures are proposed to enhance revenues. The first is a six cent increase in the motor fuel tax. After FY 1987, five cents will be directed to the Department of Transportation Construction and Maintenance Fund. This would free some $65 million dollars from the General Revenue Fund and restore the Department of Transportation to a stable funding level nearly equal to that of FY 1986.

The sixth cent of the motor fuel tax increase would be directed to an escrow account as a pledge to pay back a possible bond issue for Capital Projects. The size of the bond issue will be determined after capital needs have been identified and by the prevailing interest rate and the length of the maturity. Included in the capital projects likely to be proposed are the upgrading of one prison from minimum to medium security, the construction of a new medium security prison, (though it may be feasible to accomplish this with private funding), expansion of the state's telecommunications network to couple with the effort of the State Regents, construction of or acquisition of state office buildings to replace space currently being rented, updating and replacing obsolete equipment in the higher education system and others.

Also proposed is a reduction of the corporation tax from 5% to 4%. This will help send a signal that Oklahoma wants economic growth. State sales tax is proposed to be cut to three cents. This is a $40 million reduction for our citizens.

The base is expanded to include various services. As our economy becomes more diversified and in the future concentrates more on the delivery of services, a sales tax on services is logical to provide a sound and stable fiscal base.

It is intended all personal services will be subject to the sales tax with the possible exception of funeral services (Oklahoma already collects sales tax on coffins) and day care services.

The expansion of the sales tax base will also provide needed revenues to those financially strained cities and towns which now levy a sales tax. As part of this proposal, state funds in the amount of $16 million now designated for cities will be redirected to those counties with a unitized country road system for primary road improvements.

A portion of the sales tax on hospital services will be designated as the Indigent Health Care Fund and will be available to hospitals all across the state that provide health care to our poor. This proposal is both efficient in design and humanitarian in intent. It will help assure provision of health care to all Oklahomans in locations convenient to the patients and families. In addition, it will help balance health care delivery statewide and alleviate a growing indigent health care load at the Health Sciences Center where care is more costly.

Finally, this budget recommends increases in fees for services provided by state government. Tuition at our state universities and colleges are proposed to be raised some $60 million. Without question, the state in general benefits from a college educated populace, but the primary beneficiary is the student whose future earnings are greatly enhanced.

In order that access to higher education will not be denied to anyone qualified to enter our higher education system, the creation of a vastly expanded student loan fund is proposed. This fund will guarantee every student a major proportion of their tuition in loans at favorable rates with repayment to come from enhanced future earnings. As most states have already done, it is time for Oklahoma to relieve the taxpayer of a disproportionate share of the costs of higher education.

Other fees are also proposed where the beneficiary of the government service is easily identifiable. This includes the various regulatory agencies of the state, including an increase in the oil and gas excise tax designated to the oil and gas Conservation Fund of $2 million and a utility fee of $2.7 million to fund the Corporation Commission. Also proposed is an increase in Worker's Compensation assessments to 1982 levels and applying this additional $3 million to funding of our courts. It is proposed that all regulatory agencies become self-funded. Under study is a proposal to alter the gross production tax to extend the life of small stripper wells.

In order that our state government become more efficient in the delivery of services, I have also proposed abolishing or consolidating a number of agencies. Also I support proposals to reform the operation of the State Treasurer's Office to earn more money through wise investment of state funds.

One of the missions of a Department of Human Services is to provide community-based social services. Under such a mission, the Eldercare Program logically belongs under the DHS umbrella. This can avoid significant duplication of effort and save taxpayers dollars.

Nursing and residential care facilities of the Department of Veterans Affairs are recommended for transfer to DHS, to private operators or veterans organizations. This will reduce administrative costs and provide quality services more economically.

It is worth stating again that of the more than 400,000 veterans in Oklahoma, fewer than 1,000 are cared for in state-run veterans' nursing homes. Most veterans who need care must look to privately-run nursing homes.

There is no defensible reason to provide preferential care for a tiny fraction (less than 1/2 of one percent) of veterans. The cost savings is significant — some $40,000 to $50,000 per day (around $15 million per year) of taxpayers money. Federal funds pay a part of the cost whether services are provided in private or state-run homes.

The consolidation of Oklahoma's state lodges in the Department of Commerce is recommended. In time, I propose that they be sold to private owners where they can be modernized and expanded with investor capital and placed on the tax rolls.

The responsibility for assisting in enhancement of Oklahoma's already highly important tourist industry becomes the responsibility of the Department of Commerce. I propose that Oklahoma's state parks be managed by a separate Department of Parks and Recreation.

A number of other agencies, boards and commissions are also recommended for program consolidation or elimination. This should bring greater efficiency to management of state government and save overhead costs.

As is always the case in the legislative process, this document is subject to change and review. I present it as a good faith effort to cope with the severe financial circumstances confronting our state. I assure you of my full cooperation as you consider the difficult decisions circumstances require us to make. If you have a better solution or a more workable plan, I am anxious to hear it and will embrace it eagerly. There is no pride of authorship in this proposal.

In the circumstances we face, there are always some among us who enjoy a good fight, sometimes spiced with flights of oratory. In those situations, there is a tendency to indulge in a bit of demogoguery and maybe take a few cheap shots. But remember — we've got a problem — a $363 million dollar problem — and when the fun and games are over, that problem will still be there sitting like a buzzard in a dead oak tree. Either we solve our problem or, by action of the Constitution, automatic spending reduction will occur that will cut deeply into the muscle — even the bone — of state services. It would mean more prisoners turned loose, classrooms closed and highways unfit for travel.

I believe Members of the House and Senate are more than equal to the task before us. We did not create this problem but solving it is our responsibility. I know we can — and one way or another, we will.

Upon motion of Senator Luton, the Joint Session was ordered dissolved at the hour of 2:30 p.m.

MESSAGE FROM THE GOVERNOR

Advising approval by him, April 13, 1987, of Enrolled **SB 39** and advising veto of **SB 122** on April 13, 1987. The veto message reads as follows:

To the President and Members
of The Honorable Senate
First Session,
Forty-First Oklahoma Legislature

This is to advise you that on this date I vetoed: Enrolled **SB 122** — By Ford, et al of the Senate and Cozort, et al of House.

An act relating to crimes and punishments; *** and providing an effective date.

For the reasons in the attached memorandum.

SB 122 is a well-intentioned attempt to assuage the fears of Oklahomans who believe they may face criminal prosecution or civil liability if they are required to use force in defending themselves against perceived threats from intruders. Oklahoma law already recognizes and enforces vigorously the rights of self defense, defense of our loved ones and defense of our homes. In 1911, our highest criminal court held that a homicide committed in self defense or in defense of a person's home against an intruder who intends violence or to commit a felony is justifiable homicide. *Mulky v. State,* 5 Okla. Crim. 75, 113 P. 532 (1911).

This precept of our law has a history in American and English jurisprudence which extends back more than nine hundred years. Again and again, our courts have said flatly, a person has the right to defend himself against any assault. *See, e.g., Adams v. State,* 93 Okla. Crim. 333, 228 P.2d 195 (1951).

SB 122 attempts to change virtually a millennium of Anglo-American law by creating absolute immunity from prosecution when it appears that a killing may have occurred in defense of a person's home. At first reading, this provision seems merely to codify the common law. But this bill goes much further and in doing so creates a safe harbor for cunning murderers sly enough to manipulate the statute.

Currently self defense is an "affirmative defense" in a trial for murder or manslaughter. In the unlikely event that a home-owner is brought before a criminal court for a homicide arising from defense of his home, his burden in asserting this defense is relatively light. He needs only to introduce enough evidence to raise a belief in the jury's mind that he acted in his own necessary defense or to raise a reasonable doubt about his activity. *Anderson v. State,* 90 Okla. Crim. 1, 209 P.2d 721 (1949).

Even this level of proof is rarely required as district attorneys typically refuse to prosecute individuals who show upon routine investigation that self defense was the motivation for use of deadly force. In those few cases where a prosecution may occur, a jury made up of twelve of the person's peers will hear the evidence and make an informed decision. I continue to have every confidence that juries composed of everyday citizens will serve our state and nation as well as they have for the past two centuries.

Clever criminals could use **SB 122** to hide their nefarious acts. Prosecutors in Colorado, where Section 1 of this bill was enacted in 1985, have informed me of a number of incidents in which persons may have committed murder or manslaughter

and escaped prosecution because the new law prevents evidence from reaching a jury. The incidents in which murder or manslaughter may have been committed and the perpetrators may have escaped just punishment by the state include episodes Oklahomans cannot accept.

SB 122 is seriously flawed. No jury of twelve unbiased citizens decides cases of homicide at home — the judge makes that decision at a preliminary stage of the proceedings when the evidence has not been fully developed. A well-informed jury is more to be trusted to act responsibly after a full exposition of the evidence. Under the jury system, criminals have a more difficult time getting away with premeditated murder.

It is particularly compelling that Colorado's district attorneys and Oklahoma's district attorneys — men and women dedicated to fighting crime every day — are opposed to this legislation. It would be a serious disservice to approve an act which hampers their ability to punish cold-blooded murderers.

Proponents also argue that Section 1 of this bill is required to prevent relatives of deceased criminals from draining the savings of homeowners who have defended themselves. Section 1 is intended to prohibit civil lawsuits for recovery of damages in wrongful death or personal injury.

Innocent victims of crime should not be forced to deplete their savings in such lawsuits, but the proper way to solve this problem is contained in **SB 134,** which is one of the tort reform measures proposed earlier this session. Under the provisions of that bill, the criminal or the criminal's relatives would be liable for the innocent victim's attorney's fees.

In addition, the ban on wrongful death actions, which is accomplished through Section 1, violates Article 23, Section 7 of the Oklahoma Constitution which prohibits limitation of wrongful death actions except in cases covered under the worker's compensation laws.

Section 3 of **SB 122** also causes concern. This section allows any person, whether at home, out in a crowd or strolling the streets, to use deadly force when it is believed any personal injury may be done to the person, a relative, employer or employee.

Away from home, under current law, a person may use the force that reasonably appears to be necessary for self defense, defense of others, protection of property or to avoid bodily injury. *Terhune v. State,* 530 P.2d 557 (Okla. Crim. 1974). To go beyond that by allowing killing for slight personal injury is contrary to standards of civilized society.

SB 122 would condone escalated response to the mere possibility of the slightest injury. While the vast majority of law abiding citizens would feel restrained from such over reaction, the criminal element of our society would not. If **SB 122** became law, thugs would have a shield from the justice because of pretended threats of slight injury.

For these reasons, I cannot sign this legislation and have vetoed it. The only people this bill "makes the day" for are potential murderers and their defense attorneys.

This bill could be corrected by repealing Section 3 and by providing that use of deadly force against an intruder at home would be an affirmative defense to murder or manslaughter. Immunity from civil prosecution after establishment of this affirmative defense or a district attorney's refusal

to prosecute because the homicide was justified could remain in a corrected bill.

Examples of Potential Problems Under SB 122:

In one Colorado incident involving the so-called "Make My Day" law, a neighbor complained to police about a noisy party. One of the partygoers became upset and let air out of the neighbor's tires. The neighbor's wife saw this and entered into a shouting match with the partygoer on the porch. The husband heard the shouts, ran to the door with his pistol drawn and in a matter of seconds shot the partygoer, wounded a man across the street and killed his own wife. The court ruled the Colorado law, which **SB 122** is based on, forgave all of the shootings.

In another incident, a husband challenged his wife's paramour to come to his house and settle the matter. The husband allegedly waited at home with a gun. The other man apparantly broke in to meet the challenge and was killed. The Colorado court dismissed charges against the husband because of the immunity law.

In a third episode, a drug deal transacted in the dealer's home went awry. The dealer shot the buyer and threw the wounded man outside, where he died. The court ruled the homicide occurred outside where the victim died. The defense on appeal has argued the shooting is the act precipating the killing, it occurred inside the house and therefore the dealer should go free under the Colorado law.

In yet another incident, a man shot and killed his neighbor. The defense and prosecution presented conflicting evidence as to whether the neighbor was coaxed to the home or entered unlawfully. The court ruled that with such conflicting evidence, there was no choice under the law but to dismiss murder charges. In the next week, the same man allegedly killed his wife.

MESSAGE FROM THE GOVERNOR

Advising veto on April 28, 1987, of Enrolled **SBs 225, 226, 227, 228** and **234.**

The veto messages read as follows:

To the President and Members
of the Honorable Senate
First Session, Forty-first
Oklahoma Legislature

This is to advise you that on this date I vetoed:

Enrolled **SB** 225 by Boatner of the Senate and Williams (Freddye) and Kamas of the House.

An act relating to professions and occupations; *** and declaring an emergency.

because the Polygraph Examiners Board is too heavily dominated by the persons regulated, the establishment of the board as constituted contributes to the diffusion of executive power, making the executive branch inefficient and ineffective, and the activities and responsibilities of the board should be assumed by the Oklahoma State Bureau of Investigation.

This is to advise you that on this date I vetoed:

Enrolled **SB 226** by Boatner of the Senate and Williams (Freddye) and Kamas of the House.

An act relating to professions and occupations; *** and declaring an emergency.

because the activities and responsibilities of the State Board of Registration for Foresters should be assumed by the State Department of Agriculture, the board is completely dominated by the persons regulated, and the establishment of the board as constituted contributes to the diffusion of executive power, making the executive branch inefficient and ineffective.

This is to advise you that on this date I vetoed:

Enrolled **SB 227** by Boatner of the Senate and Williams (Freddye) and Kamas of the House.

An act relating to professions and occupations; *** and declaring an emergency.

because the activities and responsibilities of the State Burial Board should be assumed by the Insurance Commissioner who sits on the board and because the establishment of the board as constituted contributes to the diffusion of executive power, making the executive branch inefficient and ineffective.

This is to advise you that on this date I vetoed:

Enrolled **SB 228** by Boatner of the Senate and Williams (Freddye) and Kamas of the House.

An act relating to State Government ; *** and declaring an emergency.

for the reasons explained in the messages accompanying the vetoes of Senate Bills 225, 226, 227 and 234 and because the activities and responsibilities of the State Employees Group Insurance Board should be assumed by the Office of Personnel Management, the agency whose counterpart in

private business handles such insurance affairs.

This is to advise you that on this date I vetoed:

Enrolled **SB 234** by Boatner of the Senate and Williams (Freddye) and Kamas and Thompson of the House.

An act relating to professions and occupations ; *** and declaring an emergency.

because the activities and responsibilities of the State Board of Licensed Social Workers should be combined with those of other existing agencies, such as the State Board of Examiners of Psychologists, the Social Workers' Board is too heavily dominated by the persons regulated, and the establishment of the board as constituted contributes to the diffusion of executive power, making the executive branch inefficient and ineffective.

A concurrent resolution recognizing, commending, and congratulating the Future Business Leaders of America — Phi Beta Lambda Chapter of the Francis Tuttle Area Vo-Tech Center; Mr. J. Richard Hunt, A.A.R.O.S.S. Corporation; and the Sooner Detachment of the Oklahoma Marine Corps League for their efforts in compiling a complete list of Oklahoma's veterans who sacrificed their lives while serving our great nation; making a permanent record; and directing distribution.

WHEREAS, the Oklahoma Legislature considers it most worthy and appropriate to commend a dedicated group of Oklahomans who have spent a great deal of time and effort tirelessly pursuing their goal to recognize every veteran from Oklahoma who died while serving his country; and

WHEREAS, it was discovered by one distinguished Oklahoma veteran, Mr. J. Richard Hunt, that there was no complete list of all the Oklahomans who have died in American wars and conflicts since the 19th century; and

WHEREAS, correcting this terrible oversight became an overwhelming desire of Mr. Hunt and his fellow veterans in the Sooner Detachment of the Oklahoma Marine Corps League, and their goal was to see such a list compiled and some form of tribute or memorial made to these war heroes; and

WHEREAS, it became obvious to Mr. Hunt that compiling this massive list was a long and complicated procedure and one that could not be accomplished alone; and

WHEREAS, he was referred to the student group of Future Business Leaders of America — Phi Beta Lambda Chapter at the Francis Tuttle Area Vo-Tech Center and

appealed to these students for their assistance in this worthy goal; and

WHEREAS, these patriotic young people eagerly embraced the opportunity to assist Mr. Hunt with this project and felt they were performing a valuable service for the entire State of Oklahoma; and

WHEREAS, this project came to be known as the Francis Tuttle Area Vo-Tech Center's Outstanding Project which the students titled "Forgotten Heroes"; and

WHEREAS, the 56 members and advisors of the Future Business Leaders of America — Phi Beta Lambda Chapter spent a great deal of time researching existing records, compiling data and computerizing the names and information so that each veteran could be listed by name, home town and county; and

WHEREAS, this was no small feat when it is realized how many town and county names have changed since before World War I, and the original documents were often of poor quality and very fragile; and

WHEREAS, the students have expressed a debt of gratitude on being able to participate in a project of this magnitude, but in truth the project could not have been completed without their tremendous efforts; and

WHEREAS, once the extensive list containing many thousands of names was compiled, the students, veterans groups, state officials and other interested parties presented the list to the Oklahoma Historical Society to be placed in its care; and

WHEREAS, the Francis Tuttle Area Vo-Tech Center's Future Business Leaders of America — Phi Beta Lambda Chapter went on to enter their Outstanding Project in the State Future Business Leaders convention winning first place and when competing nationally at the Future Business Leaders of America — Phi Beta Lambda Convention, against 4,500 delegates, they again won the first place award; and

WHEREAS, the students have been cited and congratulated by President Ronald Reagan, the U.S. Senate and the U.S. House of Representatives; and

WHEREAS, as the group's sponsor and the individual who inspired the students with his dream to recognize and honor our state's forgotten heroes, Mr. J. Richard Hunt was recognized as Business Person of the Year, both statewide and nationally by the Future Business Leaders of America; and

WHEREAS, Mr. Hunt established an organization titled A.A.R.O.S.S. which stands for "Arrows to Astronauts Remembering Our Service and Servicemen" so that the efforts put forth by all concerned to memorialize our war dead, may continue and hopefully other states will follow the example set by Oklahoma, which was the first state to attempt to compile such a list; and

WHEREAS, through the efforts of these 56 members of the Future Business Leaders of America — Phi Beta Lambda Chapter, the directors and volunteers of the A.A.R.O.S.S. Corporation, the Sooner Detachment of the Oklahoma Marine Corps League and many other patriotic Oklahomans, this memorial project is assured to continue in some form including the reading of the names, which takes over 10 hours, each year on Memorial Day at the Oklahoma State Capitol.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE 1ST SESSION OF THE 41ST OKLAHOMA LEGISLATURE; THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

THAT the Oklahoma Legislature takes great pride in recognizing, commending and congratulating the Future Business Leaders of America — Phi Beta Lambda Chapter of the Francis Tuttle Area Vo-Tech Center, Mr. J. Richard Hunt and the other directors and volunteers of the A.A.R.O.S.S. Corporation, and the Sooner Detachment of the Oklahoma Marine Corps League for their unending efforts in compiling a complete list of Oklahoma's veterans who made the supreme sacrifice of their lives while defending our great nation and their further efforts to see that these brave men and women are paid proper tribute by all Oklahomans.

THAT a copy of this resolution be spread upon the pages of the permanent Oklahoma Senate and House journals of the 1st Session of the 41st Oklahoma Legislature.

The Enacting Clause shall be a part of every bill unless the same shall have been ordered stricken. A member of the Senate shall be designated by the President Pro Tempore to verify the correct engrossment and enrollment of legislation.

RULE 12-22. WITHDRAWAL FROM COMMITTEE. Any bill or resolution may be withdrawn from any committee of the Senate upon a two-thirds vote of the members of the Senate. Any bill or resolution so withdrawn shall be considered on General Order.

RULE 12-23. RECONSIDERATION. The final vote on Third Reading or Fourth Reading of any bill or joint resolution or on the emergency clause or special election feature of any bill or joint resolution may be reconsidered only if a member of the Senate serves notice on the same day such final vote is taken. Once such notice is served, the following procedures shall be observed:

MESSAGE FROM THE GOVERNOR

Advising approval by him, May 7, 1987, of Enrolled **SB 183** and **SJR 18** and advising veto of **SB 170** on May 7, 1987. The veto message reads as follows:

To the President and Members
of the Honorable Senate
First Session,
Forty-First Oklahoma Legislature

This is to advise you that on this date, I vetoed: Enrolled Senate Bill No. 170—By Haney and Cole of the Senate and Anderson of the House.

An act relating to crimes and punishments; *** and providing an effective date.

For the reasons stated in the following message.

By the Governor of the
State of Oklahoma

/s/ Henry Bellmon

While Oklahoma needs a law ensuring that archeological discoveries are treated, explored and investigated in a manner which recognizes both the dignity of the

early people who populated the land we occupy and scientific norms, Senate Bill 170 unreasonably interferes with homeowners, amateur artifact collectors and state officials performing their duties.

The definition of "burial grounds" in Section 1 is so broad that it pertains to abandoned cemetery sites where all remains buried have been properly removed. The provisions of the act apply to sites which now are residential subdivisions or business districts.

Section 2 would prohibit purchase of skeletons by the state's medical and osteopathic schools.

Section 3 would prevent the Smithsonian Institution or other important national museums from exhibiting archeological artifacts under certain conditions while allowing exhibition of the same type of artifacts by foreign entities such as the Egyptian government museum. This section also would require closing many existing museums' archeological displays.

Section 4 appears to prevent the chief medical examiner and his assistants from performing their statutory responsibilities in investigating the cause of death when skeletal remains are found.

The bill also fails to recognize that legitimate museums which may not be certified "curatorial facilities" and individual history buffs may have extensive, private collections of archeological artifacts which should not be demolished.

Finally, the bill requires state officials to "consult" with "religious or political representatives" of tribes or ethnic groups when archeological discoveries are made but does not explain the aim of the consultation or define who these representatives are.

Senator Luton moved that when the clerk's desk is clear, the Senate stand adjourned to convene Monday, May 11, 1987, at 10:00 a.m., which motion prevailed.

Upon motion of Senator Luton, the Senate adjourned at 12:30 p.m. to meet Monday, May 11, 1987, at 10:00 a.m.

MESSAGE FROM THE GOVERNOR

Advising approval by him, June 19, 1987, of Enrolled **SBs 259, 323** and **342.** Advising veto of **SB 276** on June 19, 1987. The veto message reads as follows:

To the President and Members
of the Honorable Senate
First Session, Forty-first
Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 276** by Capps of the Senate and Grieser and Leftwich of the House.

An Act relating to state government and public buildings and public works; *** and declaring an emergency.

because Section 2 increases the cost of government by requiring agencies to award contracts at a price which is five percent higher than the lowest bid when the low bidder is not from Oklahoma.

In addition to raising the cost of government, this provision threatens to lead to retaliation by other states against Oklahoma

business in two ways: first, by providing preferences for those states' own companies to the detriment of Oklahomans and, second, by disallowing purchase of any service or product provided by an Oklahoma business. These interstate trade wars would be counter-productive.

The bill's provision to forego the five percent preference if a non-Oklahoma bidder's state has a reciprocal bidding agreement with Oklahoma is a feeble attempt to avoid the trade wars inherent in the implementation of legislation such as this. In the end, this provision defeats the whole purpose of the bill. There is no reason to force Oklahoma business to suffer retaliation until reciprocal agreements are reached so they can find themselves back where we are today.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

SB 340 was referred for re-enrollment.

The following message was received concerning approval of **SB 283:**

Today I have signed **SB 283**, the Agricultural Linked Deposit Program, addressing the desperate condition of agriculture and the need for capital participation to assist in diversifying Oklahoma farming into a more profitable enterprise.

I will not be in favor of expanding this program in the near future until this program proves itself.

We've discussed this matter at some length with the Treasurer and have his letter, which is attached, outlining administrative details he intends to follow in the implementation of the program.

/s/ Henry Bellmon, Governor.

June 28, 1987

The Honorable Henry Bellmon
Governor, State of Oklahoma
Room 212
State Capitol Bldg.
Oklahoma City, Oklahoma 73105

Dear Governor Bellmon:

I believe the Oklahoma Agricultural Linked Deposit Program is a godsend for our distressed family farmers. We must all remember that the states money is the peo-

ples money.They hope that when they pay their taxes, the state will spend it wisely. From the time that government takes it until the time it is spent they expect me to safeguard and wisely invest their money so that each dollar they have given up to the government can go further. Thus it can pave more roads, build more schools, and provide better governmental services. The Agricultural Linked Deposit Program allows us to invest the peoples money back into the productive capacity of all our people not just a select few large stockholders. This office will work in partnership with all other financial institutions using private enterprise to invest the people money back into all the people, including bankers, farmers and agri-businessmen. Every dollar put into this program should ripple through our economy ten times. Thus our 25 million investment in Oklahomans will more than equal 250 million. We have industrial development bonds and the Department of Commerce programs, but through this bill we will finally do something for the family farmers and the small town banker. The return will be two fold, a good direct return on our money through CD's and the assistance this law provides in unleashing the productive capacity of all our citizens. Studies have shown that for every dollar the state invests in this program the state gets four dollars in return through reduced unemployment, increased sales tax, income tax, fuel use tax, etc. The alternative is that a few shareholders, who may not even be Oklahomans, of a few large institutions make far more than the approximately 1 1/2 to 2% that the state gives up in potential investment earnings, if only the present legal investment policies are continued as opposed to the additional enactment of this legislation.

As State Treasurer my office has until February 1, 1988 to promulgate the necessary rules and regulations to implement the law. The Oklahoma Bankers Association has appointed a committee of bankers to work with my office to formulate an appropriate set of rules and regulations. As State Treasurer, I am planning to work with this committee, my citizens advisory panel, certain members of the Legislature and others as may be appropriate to work up these rules and regulations.

Currently, through discussion with bankers, agricultural people and others I believe I have devised the method that will be chosen to arrive at both the state's CD rate and the banks' maximum lending rate under this program. Currently, unless a better plan is later devised, I will invest in a CD at 3% below the equivalent in time frame Federal Note Rate. This rate would be linked to a loan at a maximum of 5¼ above the states CD rate on this program. The 5¼ spread between the state's CD rate and the lending rate is to compensate the bankers for the cost and risk of undertaking the loan transaction. If for some reason, a loan were less than one year, I envision using the T-Bill rate (less than one year) and the Treasury Note Rate (over 1 year) as the bench mark rate to make an interest rate reduction for this program,. What the reduction is will depend on time frame and will be determined by working with the above mentioned committee and others. Once a standard is chosen it will not be arbitrary nor will it vary from lender to lender or borrower to borrower.

In addition, state elected officials or their immediate families will not be eligible to participate in the agricultural linked deposit program as now structured unless not enough other citizens wanted to participate to use all available funds. I fully expect that there will be more demand for loans than there is money available under this law and any citizens wanting to participate in this program will have total priority over any elected officials or immediate members of their family. I feel very strongly about this

policy. Government and elected officials are the servants of the people. Government is not a vehicle for elected officials personal gain. However, elected officials should not be penalized for their willingness to serve and sacrifice for the people.

Sincerely,

/s/ Ellis Edwards

The veto message on **SB 104** reads as follows:

To the President and Members
of the Honorable Senate
First Session, Forty-first
Oklahoma Legislature

This is to advise you that on this day I vetoed Enrolled **SB 104** by Giles of the Senate and Morgan (Charlie) et al of the House.

An Act relating to oil and gas *** and declaring an emergency.

for the reason that the bill severely limits the protections currently enjoyed by mineral interest owners under common law. The ninety-day limitation on unperfected security interests in severed minerals and their proceeds contained in Section 5 is totally unacceptable.

In addition, the statutory citation in subsection D of Section 3 is in error.

By the Governor of the State of Oklahoma

The current limit is five (5) mills. The proposed millage increase is in addition to others allowed by law. The change in the law would also permit millage increases to be used for new purposes, including insuring and maintaining public buildings and schools. MESSAGE FROM THE GOVERNOR

Advising approval by him, July 1, 1987, of Enrolled **SB 61** (line item veto) and veto of **SB 75;** approval on July 2, 1987, of **SBs 36, 77, 233, 321, 336** and **340;** approval on July 5, 1987, of **SBs 151, 180** and **280** and veto on July 5, 1987, of **SB 345.** Line item veto message for **SB 61** and veto messages for **SBs 75** and **345** read as follows:

To the President Pro Tempore and
Members of the Honorable Senate
First Session,
Forty-first Oklahoma Legislature

This is to advise you that on this date I vetoed Section 24 of Enrolled **SB 61** by Cullison and Dennis of the Senate and Lewis and Johnson of the House

An act relating to natural resources and regulatory entities; *** and declaring an emergency.

because the section contains the five percent bid preference language previously included in **SB 276,** which I vetoed earlier

this session. The reasons given for that veto still apply here.

Of necessity, pursuant to Oklahoma law, all other substantive sections in **SB 61** are also vetoed.

In addition, I have disapproved various items and appropriations in the bill for the reasons attached.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

Addendum to message for **SB 61:**

Funding for tick eradication was disapproved because these funds could be better used if transferred to tick research.

Funding for Community Action agencies was disapproved because the duties of these agencies can be better performed by the substate planning districts.

The appropriation to the weather modification revolving fund was disapproved for the reason that these funds apparently have been used to conduct seminars for so-called rainmakers. These seminars are of doubtful value.

To the President Pro Tempore and
Members of the Honorable Senate
First Session,
Forty-first Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 75** by Cullison and Dennis of the Senate and Lewis and Johnson of the House.

An act relating to health and social service entities; *** and providing an operative date.

because it is duplicative of **HB 1135,** which I have approved in part, and because it does not contain the emergency clause.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

To the President and Members
of the Honorable Senate
First Session,
Forty-first Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 345** by Capps of the Senate and Grieser of the House

An act relating to counties and county officers; *** and declaring an emergency.

because not enough time has elapsed since the county commission scandals to determine whether destruction of inventory records after one year is in the best interest of the State.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

Upon motion of Senator Luton, the attendance roll call of the Senate was considered the attendance roll call of the Senate in Joint Session.

Upon motion of Representative Guy Davis, the attendance roll call of the House was considered the attendance roll call of the House of Representatives in Joint Session.

President Kerr declared quorums of the Senate and House present and the Joint Session duly assembled.

The invocation was offered by Representative Holden.

Senator Luton moved that the Temporary Joint Rules of the 41st Legislature be adopted as the Joint Rules of the 41st Legislature in Extraordinary Session, which motion was declared adopted.

Senator Luton moved that the President of the Senate and the Speaker of the House of Representatives appoint a committee of five respectively as a Joint Committee to notify the Governor the First Extraordinary Session of the 41st Legislature is now in Joint Session to receive him and hear his Message, which motion was declared adopted.

Speaker Barker appoints for the House: Representatives Hudson, Logan, Williams (Freddye), Bumpus and Ferguson.

President Kerr recognized Sergeant at Arms, Bob Craig who announced the arrival of the Honorable Henry Bellmon, Governor of the State of Oklahoma.

Governor Bellmon was escorted to the Speaker's rostrum by the Joint Committee and was presented to the Joint Session by President Kerr.

The Chief Executive delivered his address to the Joint Session, as follows:

MESSAGE OF GOVERNOR BELLMON

First, I want to commend members of the House and Senate for what has been a positive and productive, though difficult, session. The financial debacle Oklahoma state government faced in January has been averted — support for essential services including education, upon which Oklahoma's future largely depends, has been strengthened. Assuming positive action on the proposed new turnpikes, Oklahoma's highway construction over the next two years will exceed any similar period in history. Bank closings have come to a virtual halt, though others may still fail.

Earlier, charts were circulated to members. These contain persuasive evidence that our state's economy is turning upward. Obviously, not all these positive changes are due to actions by state government. Many are due to renewed confidence on the part of the private sector. However, had the Legislature failed to meet its responsibilities, Oklahoma could have experienced an outflow of professors, teachers, capital and brainpower which would have put our state in a downward spiral. We still face an uphill struggle, back to full prosperity, but we are headed in the right direction.

The record is not all good nor is it yet complete. Two days of the regular session remain. As Governor, I have called you back into special session to take action which cannot be postponed until July 14.

The action of the Legislature in passing this year's appropriations bills so late that five of them reached the Governor's desk after the beginning of the new fiscal year smacks of sophomoric actions similar to those we used to take in the U.S. Senate in Washington. This is particularly evident since these bills were passed following several days of relative inaction in both houses.

This special session is necessary because agreements between the Governor and legislative leaders were not enacted into law. The first of these is Tax Commission Reform. The House passed **HB 1371,** Tax Commission Reform, on April 2nd and sent it to the Senate where it still languishes. Arguments that there has been insufficient time to study tax commission reform are spurious. Several members refused to support tax increases until and unless tax reform was accomplished. There are agreements with Senate leaders that tax commission reform would be passed prior to or concurrent with funding for the Tax Com-

mission for fiscal year 1988. As far as I am concerned, those agreements still stand.

Public confidence in the Tax Commission is absolutely essential. Oklahoma must have a respected professional, as opposed to a partisan political tax and revenue, agency. Proposed reforms would make the system bipartisan and put a professionally trained and experienced administrator in charge.

The Tax Commission must provide consistent procedures so Oklahomans can be sure that all citizens are treated justly and fairly. The agreed upon tax commission reform will provide public accountability and build confidence in our tax and revenue system.

The second agreement involves funding for the Superconducting Super Collider. On June 16th and 25th, the House and Senate passed a resolution urging the Governor to prepare a proposal for Oklahoma's entry into the national competition to be selected as a site for construction of the Superconducting Super Collider. I quote from Senate Concurrent Resolution No. 9: "THAT the Oklahoma State Legislature urges the Honorable Henry Bellmon, Governor of the State of Oklahoma, to have a proposal prepared and submitted to the U.S. Department of Energy outlining the many benefits of selecting the State of Oklahoma as the location of the Superconducting Super Collider." Due to the time constraints, this work has been proceeding under handshake agreements with private entities. These agreements cannot be expected to endure indefinitely. Funding for the Super Collider proposal was included in **HB 1512,** but for reasons that are not understood, in the last hours before the recess, most other portions of **HB 1512** were moved into **HB 1099** and passed while Super Collider funding was left unpassed in the stripped bill.

The Legislature cannot have it both ways. If Oklahoma is to enter the SSC competition, there must be funding.

Funding the Superconducting Super Collider, passing effective Tax Commission reform and funding the Tax Commission are so vitally important that they must be passed now. We have passed major tax increases. Our citizens must know that our tax laws are being fairly and professionally administered. These proposals will be passed — even if we have to stay all summer.

I take note of Speaker Barker's concern about the one-hundred-thousand-dollar cost of the special session and share his concern. There is a readily available means to avoid unnecessary expense and to quickly conclude the recessed session.

I propose the following plan: First, the House and Senate will publicly agree to fund the Super Collider, to approve tax commission reform as agreed to in this document, and to fund the Tax Commission.

I will then be agreeable to amend the Executive Order for the Special Session so that the regular session can be promptly reconvened. This will avoid the need for the special session to last five days. The work could be concluded in one day, even today.

As of yesterday, I have acted on all bills sent to the Governor's desk by the Legislature. These actions are all available for legislative consideration. There is no legitimate reason for the session to be prolonged. The First Session of the 41st Legislature can be concluded promptly at the leadership's desire.

Much positive and progessive legislation has been passed thus far this year. Only a few hours are required until the first half of

the 41st Legislature can become history. I urge you to promptly finish the job.

Senator Luton moved that the Joint Session be dissolved, which motion was declared adopted.

*

The Senate reconvened in its Chamber with Senator Rozell presiding. The Presiding Officer ordered the roll called, following which a quorum was declared present.

Senator Roberts moved that the Senate adjourn sine die on this 6th day of July, 1987, at the hour of 2:30 p.m., which motion was declared adopted.

Pursuant to the Roberts motion, the Senate of the First Extraordinary Session of the 1st Regular Session of the 41st Legislature, at the hour of 2:30 p.m. was declared adjourned sine die.
