Professional Biography *for*

**Mr. Zac Gladhill**

[gladhizs@oge.com](mailto:gladhizs@oge.com)

Zac Gladhill serves as OG&E's Director of Grid Innovation and Integration. Zac and his team are responsible for the planning and modeling of the grid modernization programs currently underway in Arkansas and Oklahoma. In addition to grid modernization, his team also focuses on the evolution of technology and the deployment of distributed energy resources, developing use cases and working with individual customers to assist in the deployment of solar solutions.

Zac has served in various roles within OG&E since 2004, serving in engineering and management capacities. He managed the construction and integration of nearly 300 MW of OG&E-owned wind projects in N.W. Oklahoma and served as the Director of Seminole Power Plant, a 1,500 MW natural gas plant located in Konawa, Oklahoma. Zac holds a Bachelor of Science in Mechanical Engineering from Oklahoma Christian University and a Master of Business Administration from Arizona State University. Zac and his family are lifetime residents of Norman.
